OPINION

of the Committee on Budgets

for the Committee on Civil Liberties, Justice and Home Affairs

on the proposal for a regulation of the European Parliament and of the Council
on the European Union Agency for Asylum and repealing Regulation (EU) No
439/2010
(COM(2016)0271 – C8-0174/2016 – 2016/0131(COD))

Rapporteur: Jens Geier

PA_Legam

SHORT JUSTIFICATION

The Commission proposed the present Regulation within a larger package of reforms of the Common European Asylum System, also comprising proposals to reform the Dublin and Eurodac systems. On a larger scale the present proposal is a follow-up on the European Agenda on Migration, agreed last year.

The Rapporteur considers it important to note that the proposed upgrading of the European Asylum Support Office to a fully-fledged EU Agency for Asylum is a necessary complement to the Border and Coast Guard package already adopted. In order to avoid that the current challenge of the arrival of unprecedented numbers of migrants seeking refuge in Europe leading to a solely restrictive approach, it is vital to strengthen the protection aspect in a parallel process to meet the human rights standards enshrined in the Treaties and the Charter of Fundamental Rights.

In a European Union with open borders within the union, the external borders become a common interest to all Member States. Questions of borders and asylum logically need a joint European response. The European Added Value is rarely so obvious than in these cases and the Rapporteur therefore supports more European engagement in this field. Financing these tasks from the Union budget is also a question of solidarity as citizens from all Member States profit from open borders, while only few Member States actually have to deal with the task of securing borders and dealing with the reception of migrants.

The Rapporteur underlines however that the EU budget is ill-equipped to deal with these new challenges as Heading 3 is by far the smallest heading within the multiannual financial framework (MFF). The Rapporteur therefore believes that it is imperative to revise the current MFF upward as soon as possible and to considerably increase the ceiling of Heading 3.

The budgetary implications of the present proposal amount to EUR 363,963 million for the period 2017-2020. In parallel to the appropriations, the staffing numbers are set to increase to a total of 500 in 2020. While the Rapporteurs agrees to the proposed financial statement, it should nevertheless be considered as a rather indicative planning as the number of arriving migrants are unpredictable, given the volatile security environment in the European neighbourhood and beyond. The budgetary authority needs to stand ready to adapt this planning should additional needs arise.

AMENDMENTS

The Committee on Budgets calls on the Committee on Civil Liberties, Justice and Home Affairs, as the committee responsible, to take into account the following amendments:

Amendment 1

Proposal for a regulation Recital 3

Text proposed by the Commission

(3) In its Communication of 6 April 2016, the Commission set out its options for improving the CEAS, namely to establish a sustainable and fair system for determining the Member States responsible for asylum seekers, to reinforce the Eurodac system, to achieve greater convergence in the asylum system and to prevent secondary movements, and develop an enhanced mandate for the European Asylum Support Office. That Communication is in line with calls by the European Council on 18 February 2016 to make progress towards reforming the EU's existing framework so as to ensure a humane and efficient asylum policy. It also proposes a way forward in line with the holistic approach to migration set out by the European Parliament in its own initiative report of 12 April 2016.

Amendment

(3) In its Communication of 6 April 2016, the Commission set out its options for improving the CEAS, namely to establish a sustainable and fair system for determining the Member States responsible for asylum seekers, to reinforce the Eurodac system, to achieve greater convergence in the asylum system **by adopting a new Regulation establishing a single common European asylum system, a new Regulation on the conditions that must be met by asylum seekers and through targeted amendments to the Directive on reception conditions**, and to prevent secondary movements, and develop an enhanced mandate for the European Asylum Support Office. That Communication is in line with calls by the European Council on 18 February 2016 to make progress towards reforming the EU's existing framework so as to ensure a humane and efficient asylum policy. It also proposes a way forward in line with the holistic approach to migration set out by the European Parliament in its own initiative report of 12 April 2016.

Amendment 2

Proposal for a regulation

Recital 6

Text proposed by the Commission

(6) The tasks of the European Asylum Support Office should be expanded, and to reflect those changes, it should be renamed European Union Agency for Asylum. The Agency should be a centre of expertise and its main **role** should be to strengthen practical cooperation and information exchange among Member States on asylum, promote Union law and operational standards to ensure a high degree of uniformity as regards asylum

Amendment

(6) The tasks of the European Asylum Support Office should be expanded, and to reflect those changes, it should be renamed European Union Agency for Asylum. The Agency should be a centre of expertise and its main **roles** should be to strengthen practical cooperation and information exchange among Member States on asylum, promote Union law and operational standards to ensure a high degree of uniformity as regards asylum

procedures, reception conditions and the assessment of protection needs across the Union, monitor the operational and technical application of Union law and standards as regards asylum, support the Dublin system and provide increased operational and technical support to Member States for the management of the asylum and reception systems, in particular those whose systems are subject to disproportionate pressure.

procedures, reception conditions and the assessment of protection needs across the Union, ***evaluate and*** monitor the operational and technical application of Union law and standards as regards asylum, support the Dublin system and provide increased operational and technical support to Member States for the management of the asylum and reception systems, in particular those whose systems are subject to disproportionate pressure.

Amendment 3

Proposal for a regulation Recital 6 a (new)

Text proposed by the Commission

Amendment

(6a) The European Union Agency for Asylum should be given sufficient financial resources and staff to guarantee that it is independent and can carry out its duties properly, including, specifically, the Agency's own staff to set up teams of experts responsible for evaluating and monitoring procedures for asylum and reception systems.

Justification

There is a plan to bring the Agency's staff up to a total of 500 by 2020. However, since the establishment plan cannot be incorporated into the regulation, it should be ensured that the Agency will have enough staff of its own to effectively carry out its duties and guarantee its impartiality.

Amendment 4

It is important that the Agency and the Member States act in good faith and have a timely and accurate exchange of information. Any provision of statistical data should respect the technical and methodological specifications of Regulation (EC) No 862/2007⁸.

Member States should cooperate with the Agency to ensure that it is able to fulfil its mandate. Any provision of statistical data should respect the technical and methodological specifications of Regulation (EC) No 862/2007⁸.

⁸Regulation (EC) No 862/2007 of the European Parliament and of the Council of 11 July 2007 on Community statistics on migration and international protection and repealing Council Regulation (EEC) No 311/76 on the compilation of statistics on foreign workers (OJ L 199, 31.7.2007, p. 23).

Justification

Under Article 4(2) of this Regulation, the Agency shall work in close cooperation with the European Border and Coast Guard and, specifically, shall rely upon a risk analysis carried out by the latter in order to ensure the greatest possible consistency.

Amendment 5

Proposal for a regulation

The Executive Director should, after consultation with the Commission, make draft recommendations to the Member State concerned outlining the necessary measures to address serious shortcomings, which in turn shall be adopted by the Management Board as recommendations.

Amendment 14

Proposal for a regulation

Article 13 – paragraph 3

Justification

The task of monitoring and evaluating the CEAS should not be carried out by seconded experts, but by the Agency's own staff, trained for that purpose. There is a plan to bring the Agency's staff up to a total of 500 by 2020. However, since the establishment plan cannot be incorporated into the regulation, it should be ensured that the Agency will have enough staff of its own to effectively carry out its duties and guarantee its impartiality.

Amendment 16

Proposal for a regulation

Text proposed by the Commission

Amendment

The multi-annual programming shall list the Member States whose asylum and reception systems shall be monitored each year, ensuring that each Member State shall be monitored at least once in every **five-year** period.

The multi-annual programming shall list the Member States whose asylum and reception systems shall be monitored each year, ensuring that each Member State shall be monitored at least once in every **two-year** period.

Justification

It seems more reasonable to us for each Member State to be evaluated at least every two years by the Agency. A five-year period between each evaluation is excessive.

The evaluation shall take due regard of progress made, within its mandate, including assessing whether additional measures are necessary to ensure effective solidarity and sharing of responsibilities with Member States subject to particular pressure.

Amendment

No later than three years from the day of entry into force of this Regulation, and every five years thereafter, the Commission shall **present** an evaluation to assess, in particular, the Agency's performance in relation to its objectives, mandate and tasks. The evaluation shall take due regard of progress made, within its mandate, including assessing whether additional measures are necessary to ensure effective solidarity and sharing of responsibilities with Member States subject to particular pressure.

Justification

There is no need to define in the regulation whether the Commission commissions a study in the sense of outsourcing to a third party or to do the evaluation in-house.
