# KTDI Lisbon

Feb 2020

**Edenspiekermann was asked to translate the existing process flows into a user friendly app interface, integrated in a seamless passenger journey.**

## Team

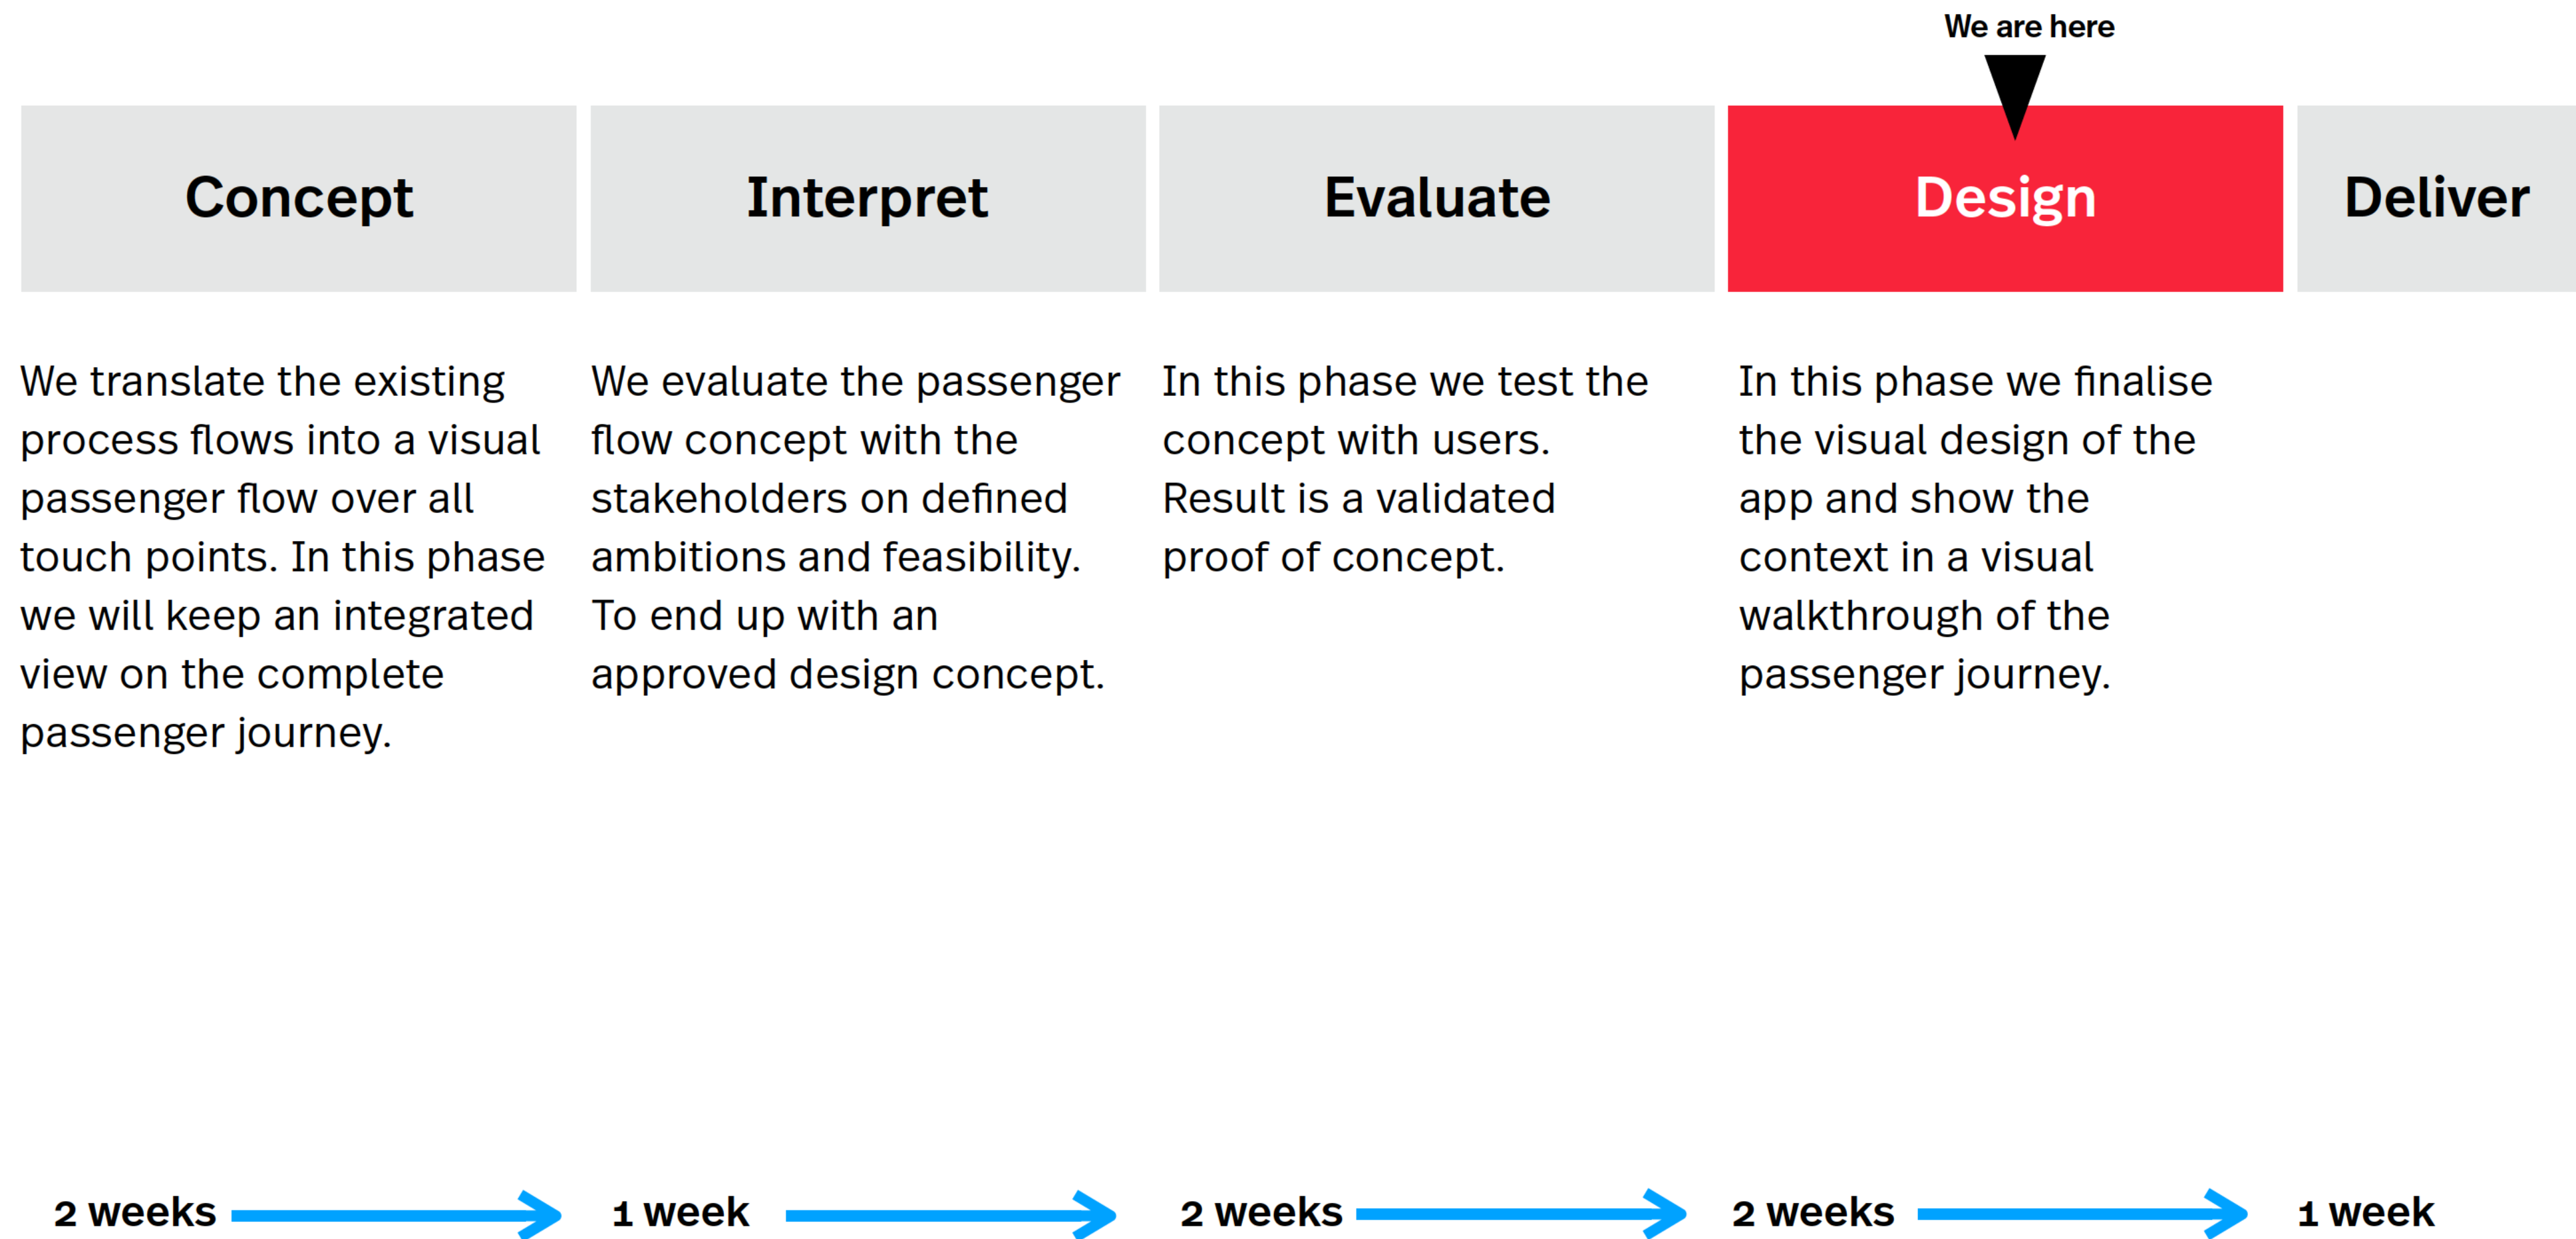

## Key deliverables

# Key KTDI deliverables

## Deliverables

- Review and iterate the pilot process flow
- User experience wireframes
- Visual design app
- Style guide and specifications for developers to guide implementation of visual designs

## Project approach

**6 weeks**

~~Steps~~  
Leaps

## Today's presentation

- **Passenger flow NLD - CAN**
- **Passenger flow CAN - NLD**
- **Usability test results**
- **Design sneak peak**
- **Questions**

Passenger flow NLD - CAN

Creating a visual  
journey through  
the eyes of the  
traveller.

## Key objectives

- 1. Defining the travellers perspective.**
- 2. Help the traveller explore and use KTDI.**
- 3. Create a premium experience worth the effort.**

Passenger flow NLD – CAN

# Frank Owlins flying from Amsterdam to Montreal

In order to create an application that helps the traveller to use KTDI, we have to take a step back to rewrite the story from the traveller's perspective.

Frank →

→ Frank books a flight with KLM from Amsterdam to Montreal.

---

Hello Frank,

You booked a trip to **Montreal** and you fly out on **May 15th 2020**. We would like to invite you to participate in the Known Traveller Digital Identification pilot program. KTDI makes it possible to have your passport on your phone and enjoy all the benefits of future travel with a digital ID.

[Learn more about KTDI](#) [Get the App](#)

- After Frank's booking is confirmed by KLM, Frank receives onboarding from KLM inviting him to participate in the Known Traveller Digital Identification pilot program.
- Frank can navigate to a dedicated landing page about the benefits of KTDI.
- Frank can navigate to the app store to download app to his device directly.

Known Traveller Digital Identity

# Enjoy all the benefits of future travel with a digital ID.

## Get started

### Download the app

- Use your face for priority security access
- Skip the lines at Border Control
- Board your flight with your face
- Speed up your arrival

[Get the App](#)

## Prepare yourself

### What you can expect

- Frank visits the KTDI landing page for more information.
- Frank is interested and is willing to download the KTDI app from the App Store.

→ Frank installs the KTDI app on his device.

Installing application

**KTDI**

Known Traveller Digital Identity

Enjoy all the benefits  
of future travel with  
Your Known Traveller  
Digital Identification.

Set up account

- Frank fires up the app for the first time.
- Frank hits "Set up account" to create a KTDI account on his device.

## Get started

### Your name

Frank Owlins

Continue

→ Frank enters his name.

→ Frank chooses a passcode to secure his data on his device.

< Back

Get started

# Re-enter your passcode

Face ID

→ Frank's device supports Face ID and prompts Frank that he can set up this extra security measure.

Face ID

[< Back](#)[Get started](#)

## Would you like to receive notifications?

Set up your notifications to keep close track of your travel documents and trips.

Yes, I'd like to receive notifications

No notifications

→ In order for Frank to keep close track of his travel documents and trips he accepts to receive notifications.

**KTDI**

Known Traveller Digital Identity

**Hi Frank, you have  
successfully set up  
your KTDI app.**

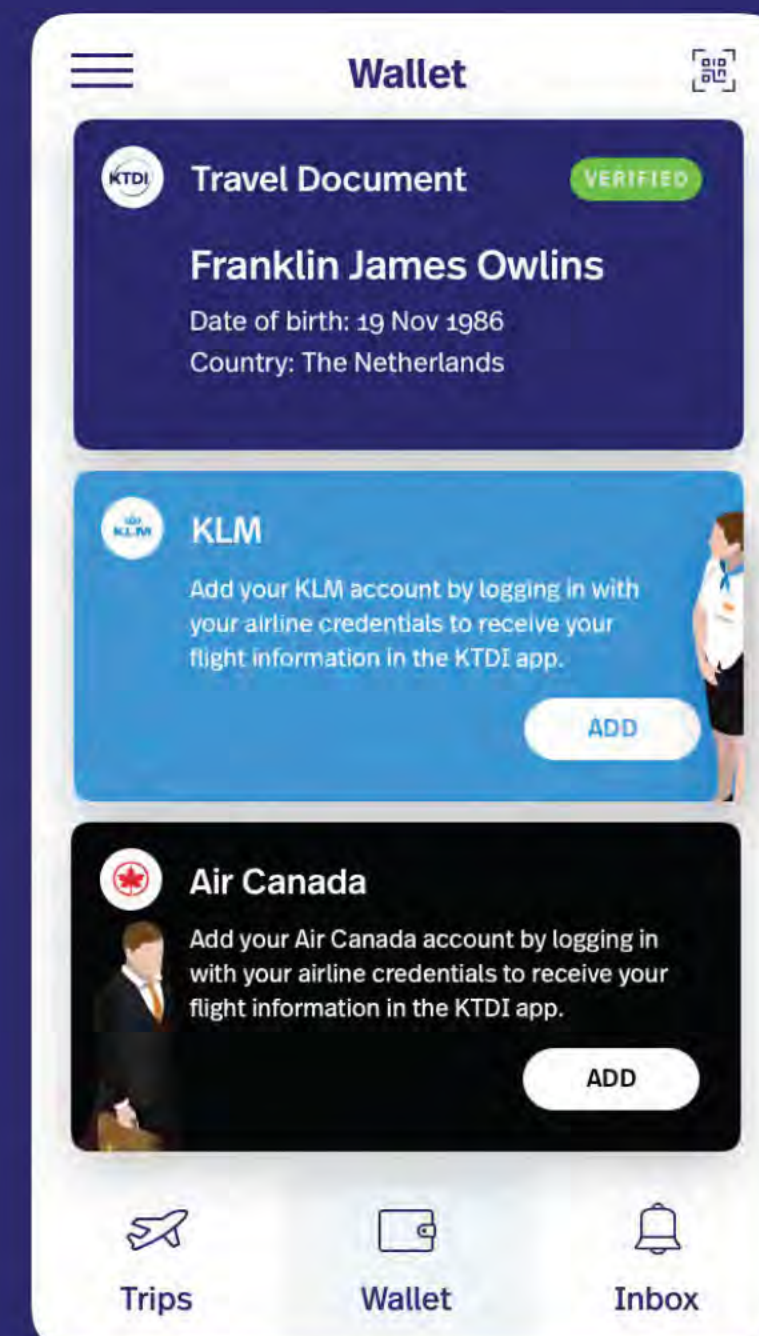

**Continue**

- Frank is now ready to use the app.
- Frank hits “Continue”.

## KTDI wallet

The wallet holds your Travel Document and Airline loyalty cards. In order to travel with KTDI you must activate both your Travel Document and an Airline loyalty card.

- Before Frank can explore the app further a set of screens show him the basic features and terminology of the application.
- What is your “Wallet”?

# Trips

Check-in with your Airline 24/48 hours before your flight. Your flight data automatically appears in the KTDI app under “Trips”.

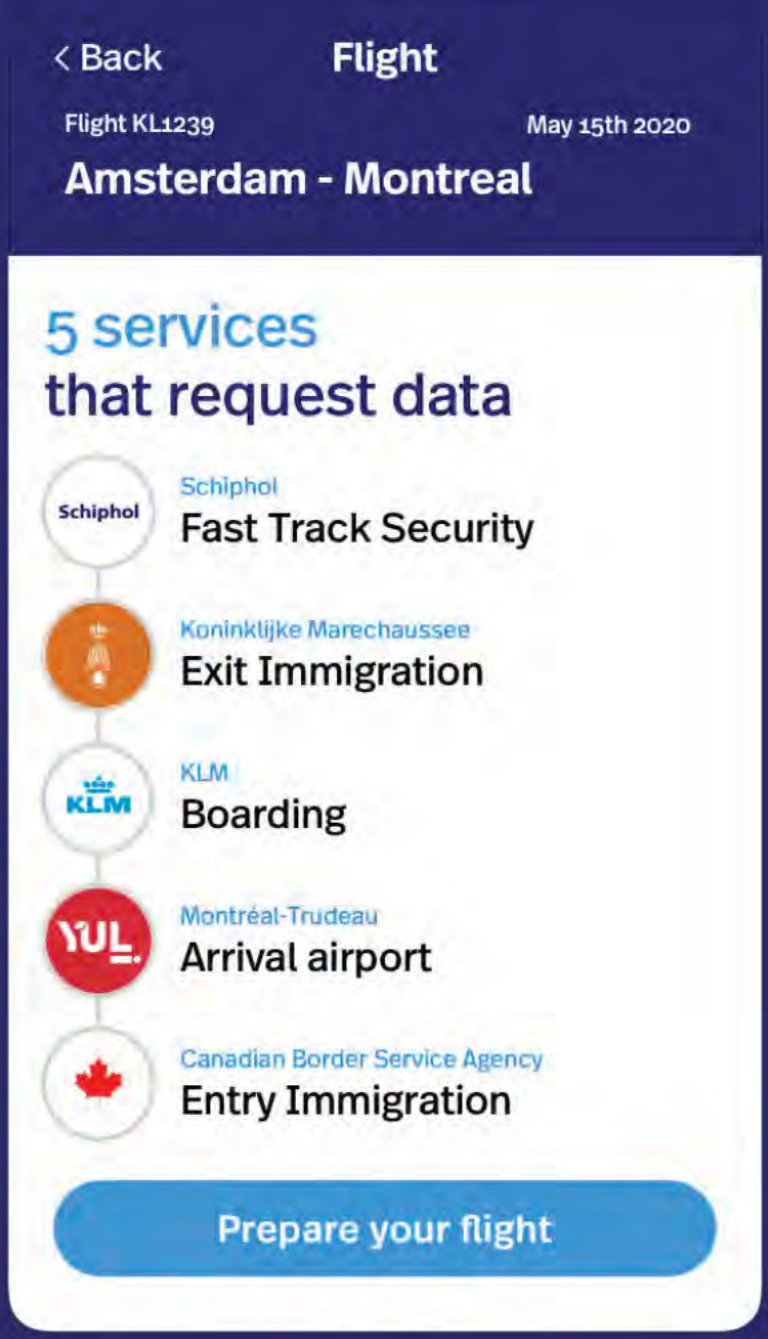

→ What are “Trips?”

# Preparing your trip

You are asked to share data with KTDI affiliated partners to enjoy all the benefits of your trip. You see an overview of parties requesting your data.

→ What do I need to do before I fly?

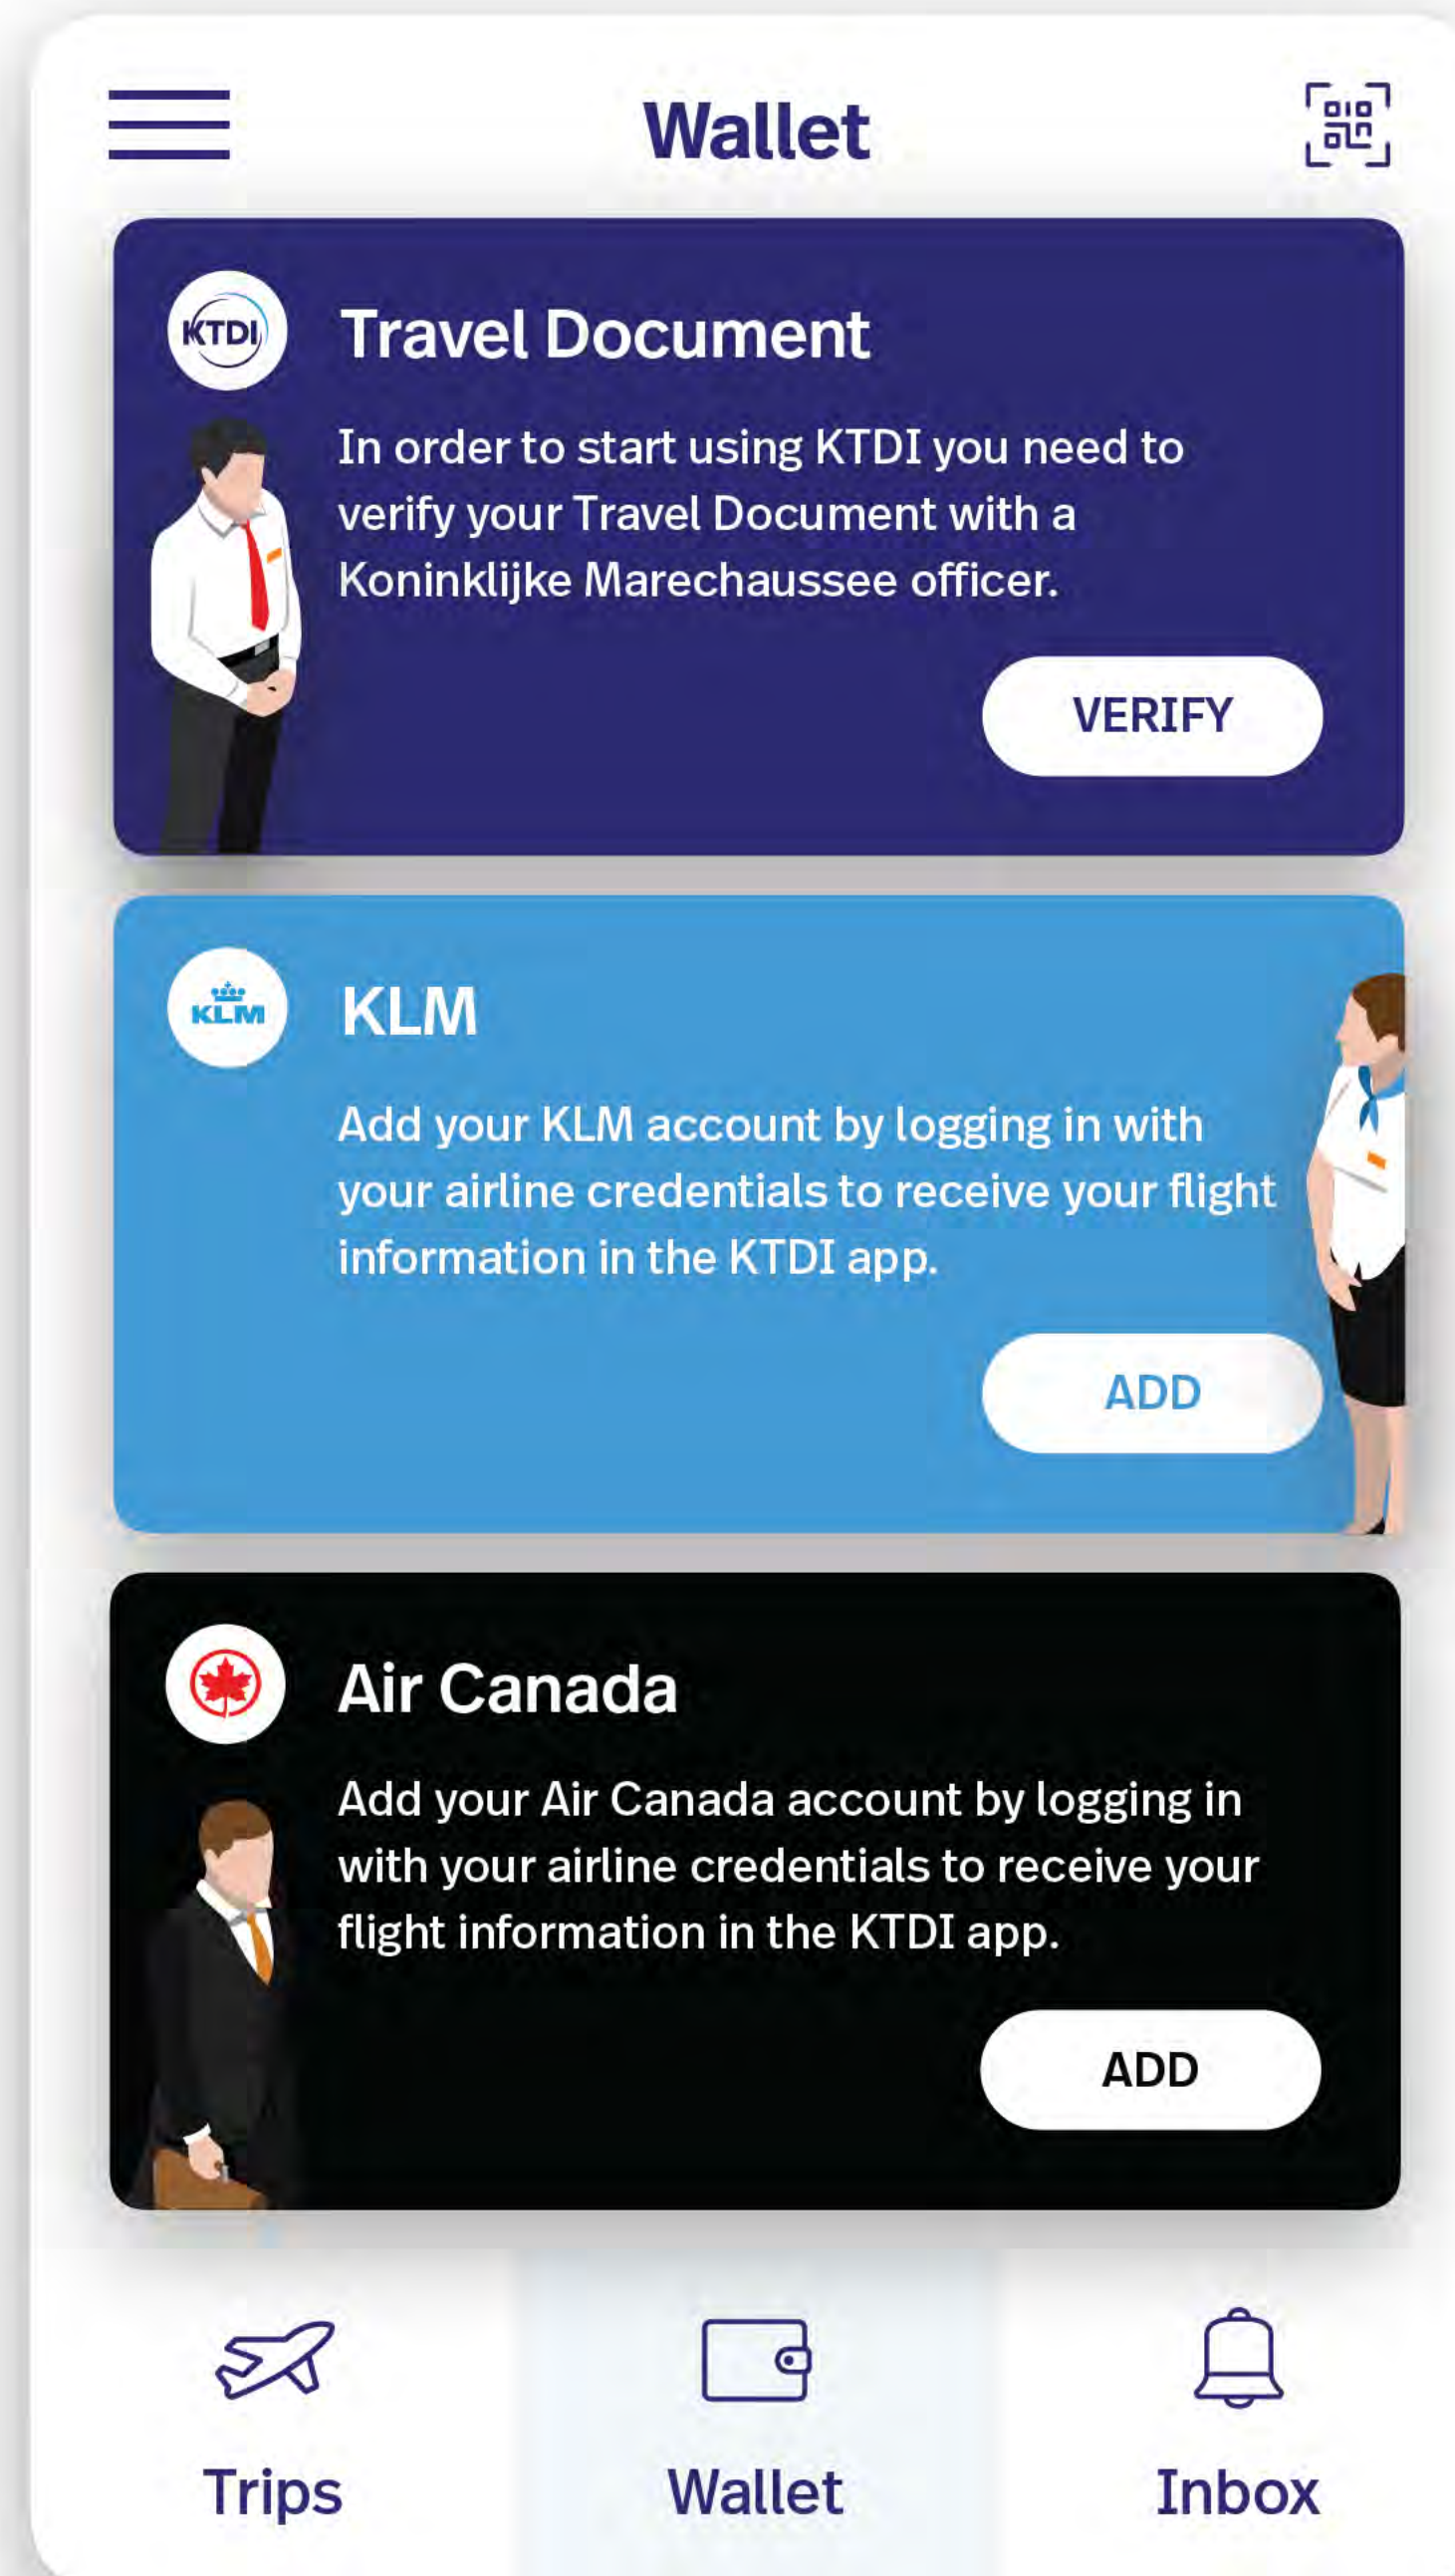

## Travel

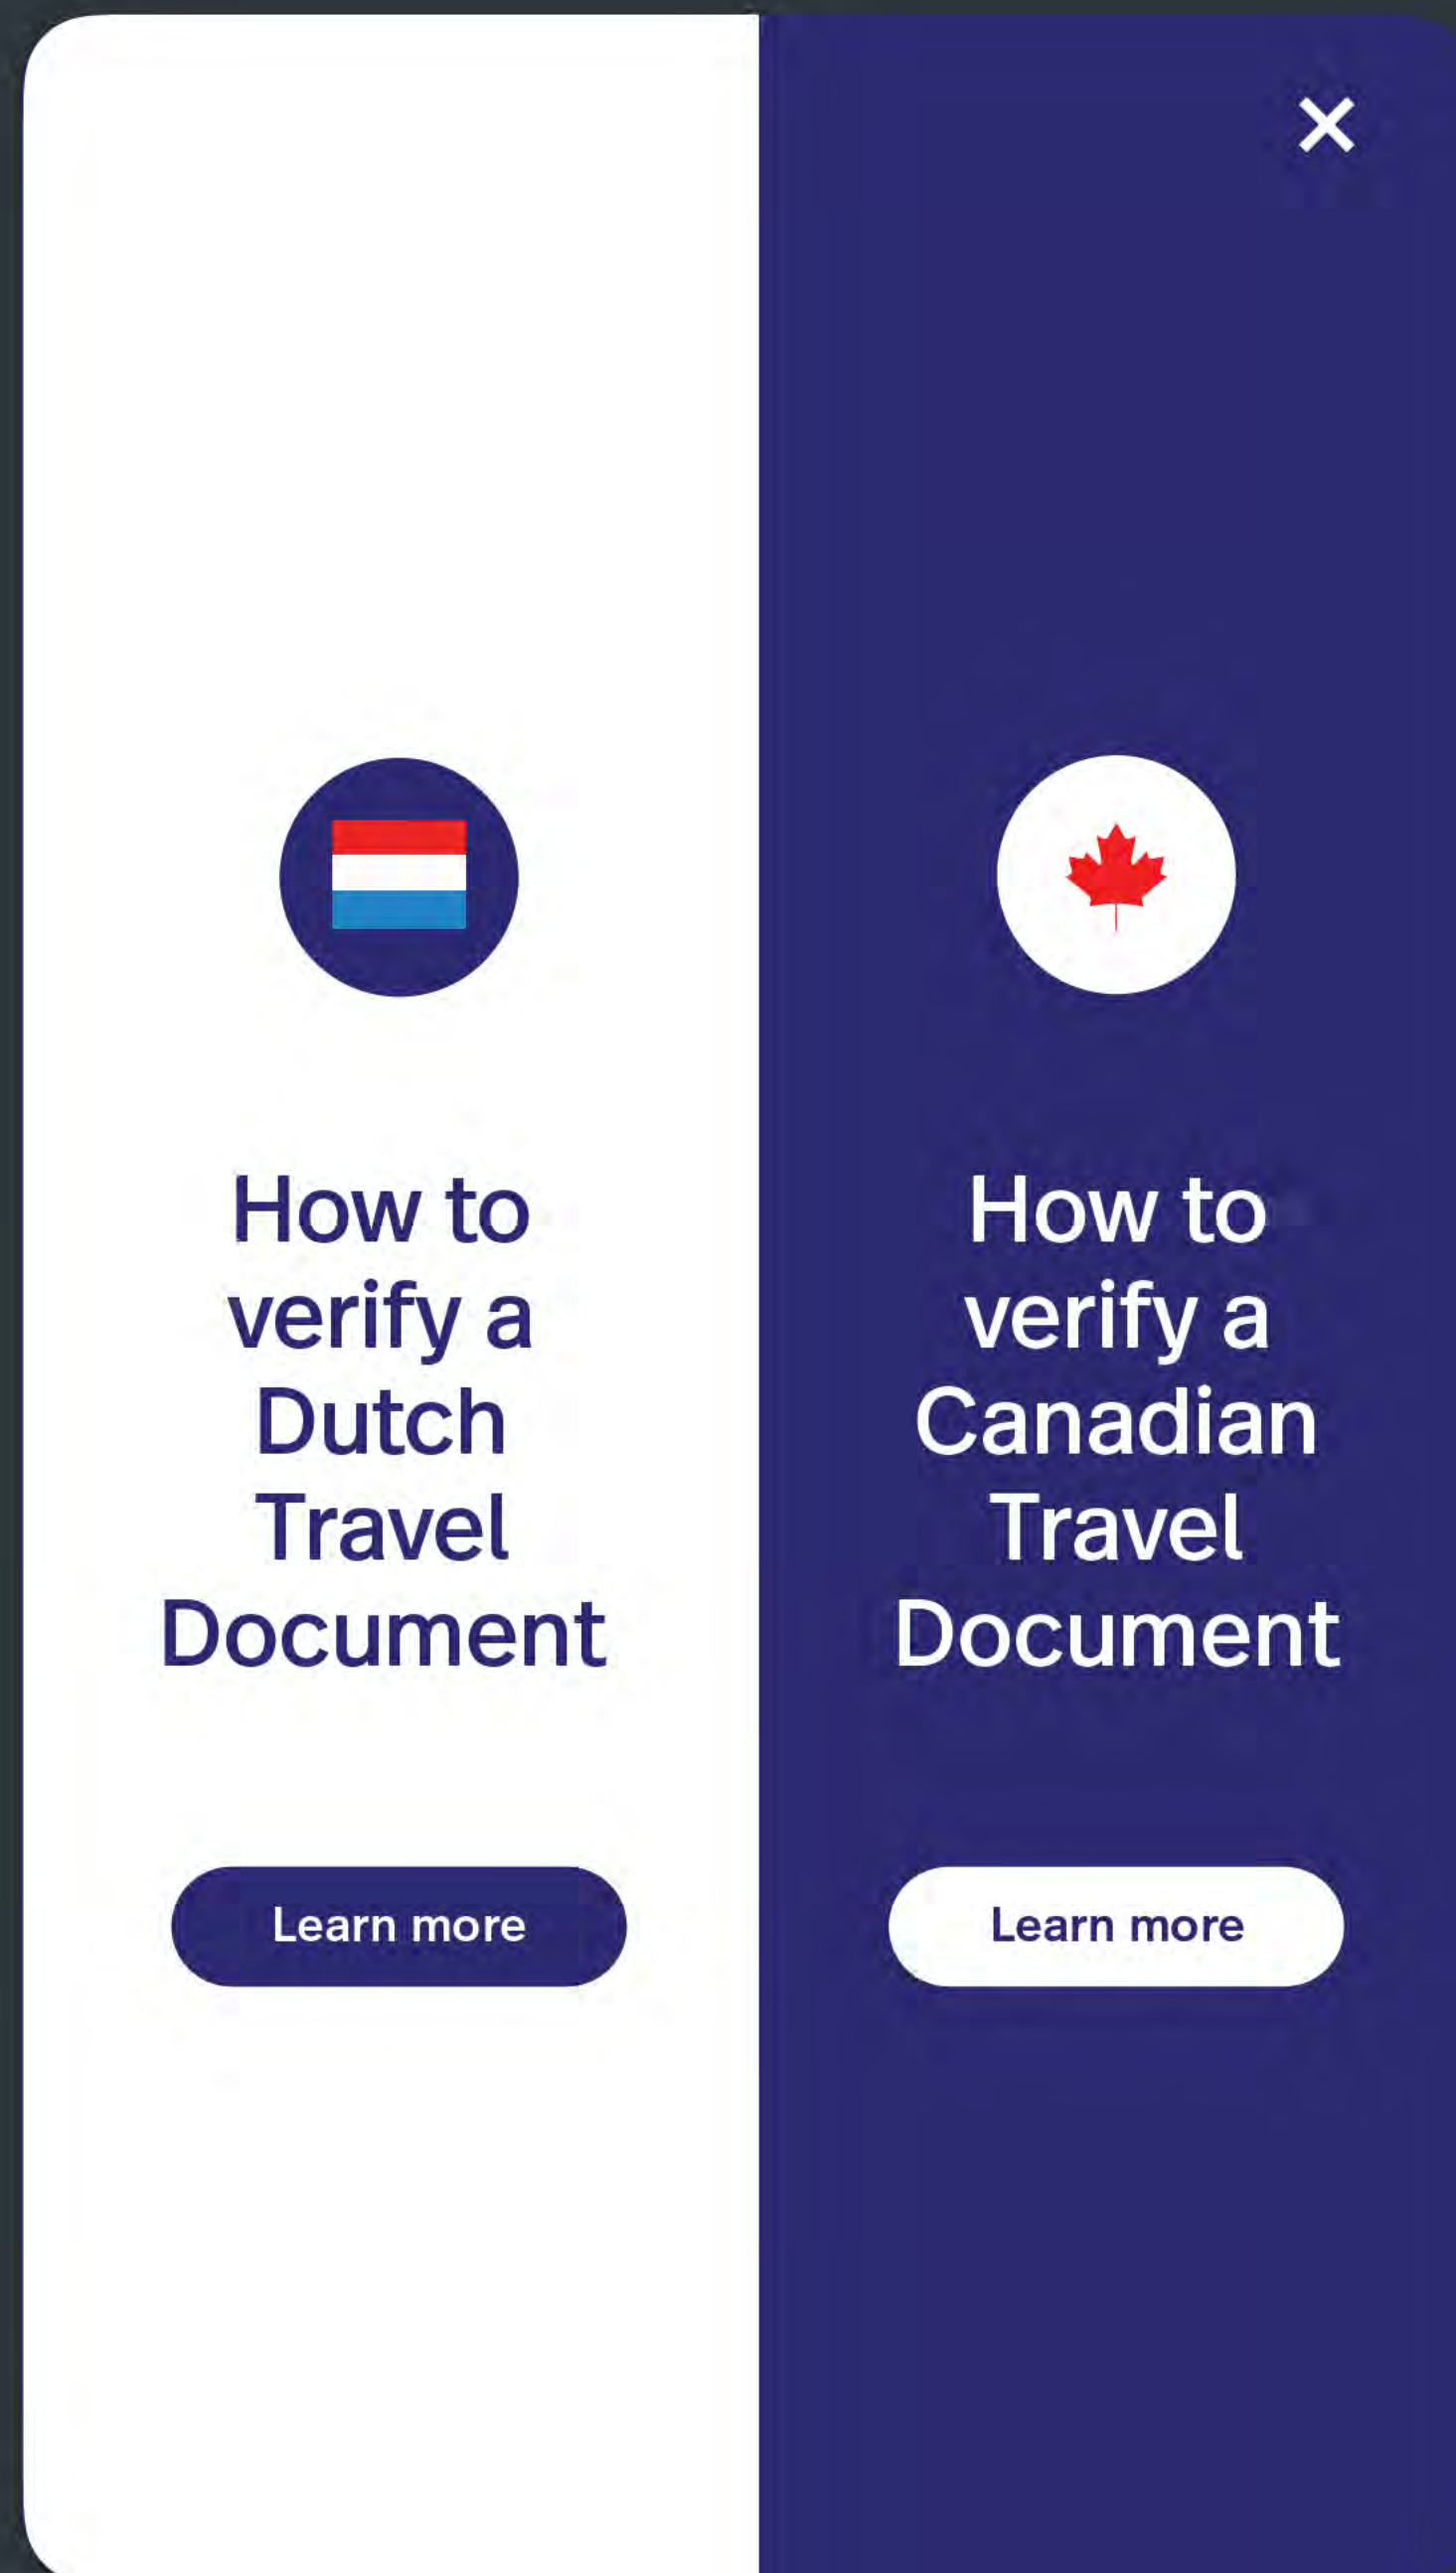

When all data has been received you can use KTDI to travel between The Netherlands and Canada, between Schiphol, Montreal and Toronto airport.

→ During your trip.

- The app is now set-up and opens on the Wallet screen.
- Frank needs to verify his identity in order to create his Travel Document.
- Frank needs to add his airline in order to automatically receive his flight information.
- The app provides Frank with a additional information for each step.
- Frank starts with exploring "Verify" on his Travel Document card.

- The app explains the two options for Canadian and Dutch citizens.
- Frank has a dutch passport so he chooses "How to verify a Dutch Travel Document."

## Step 1

Go to the Koninklijke Marechaussee desk at Schiphol.

→ In order to activate KTDI Frank has to go to the Koninklijke Marechaussee desk at Schiphol airport.

## Step 2

An officer will scan your passport, perform a face scan and verify your identity.

→ A KMAR officer will scan his passport, perform a face scan and verify his identity.

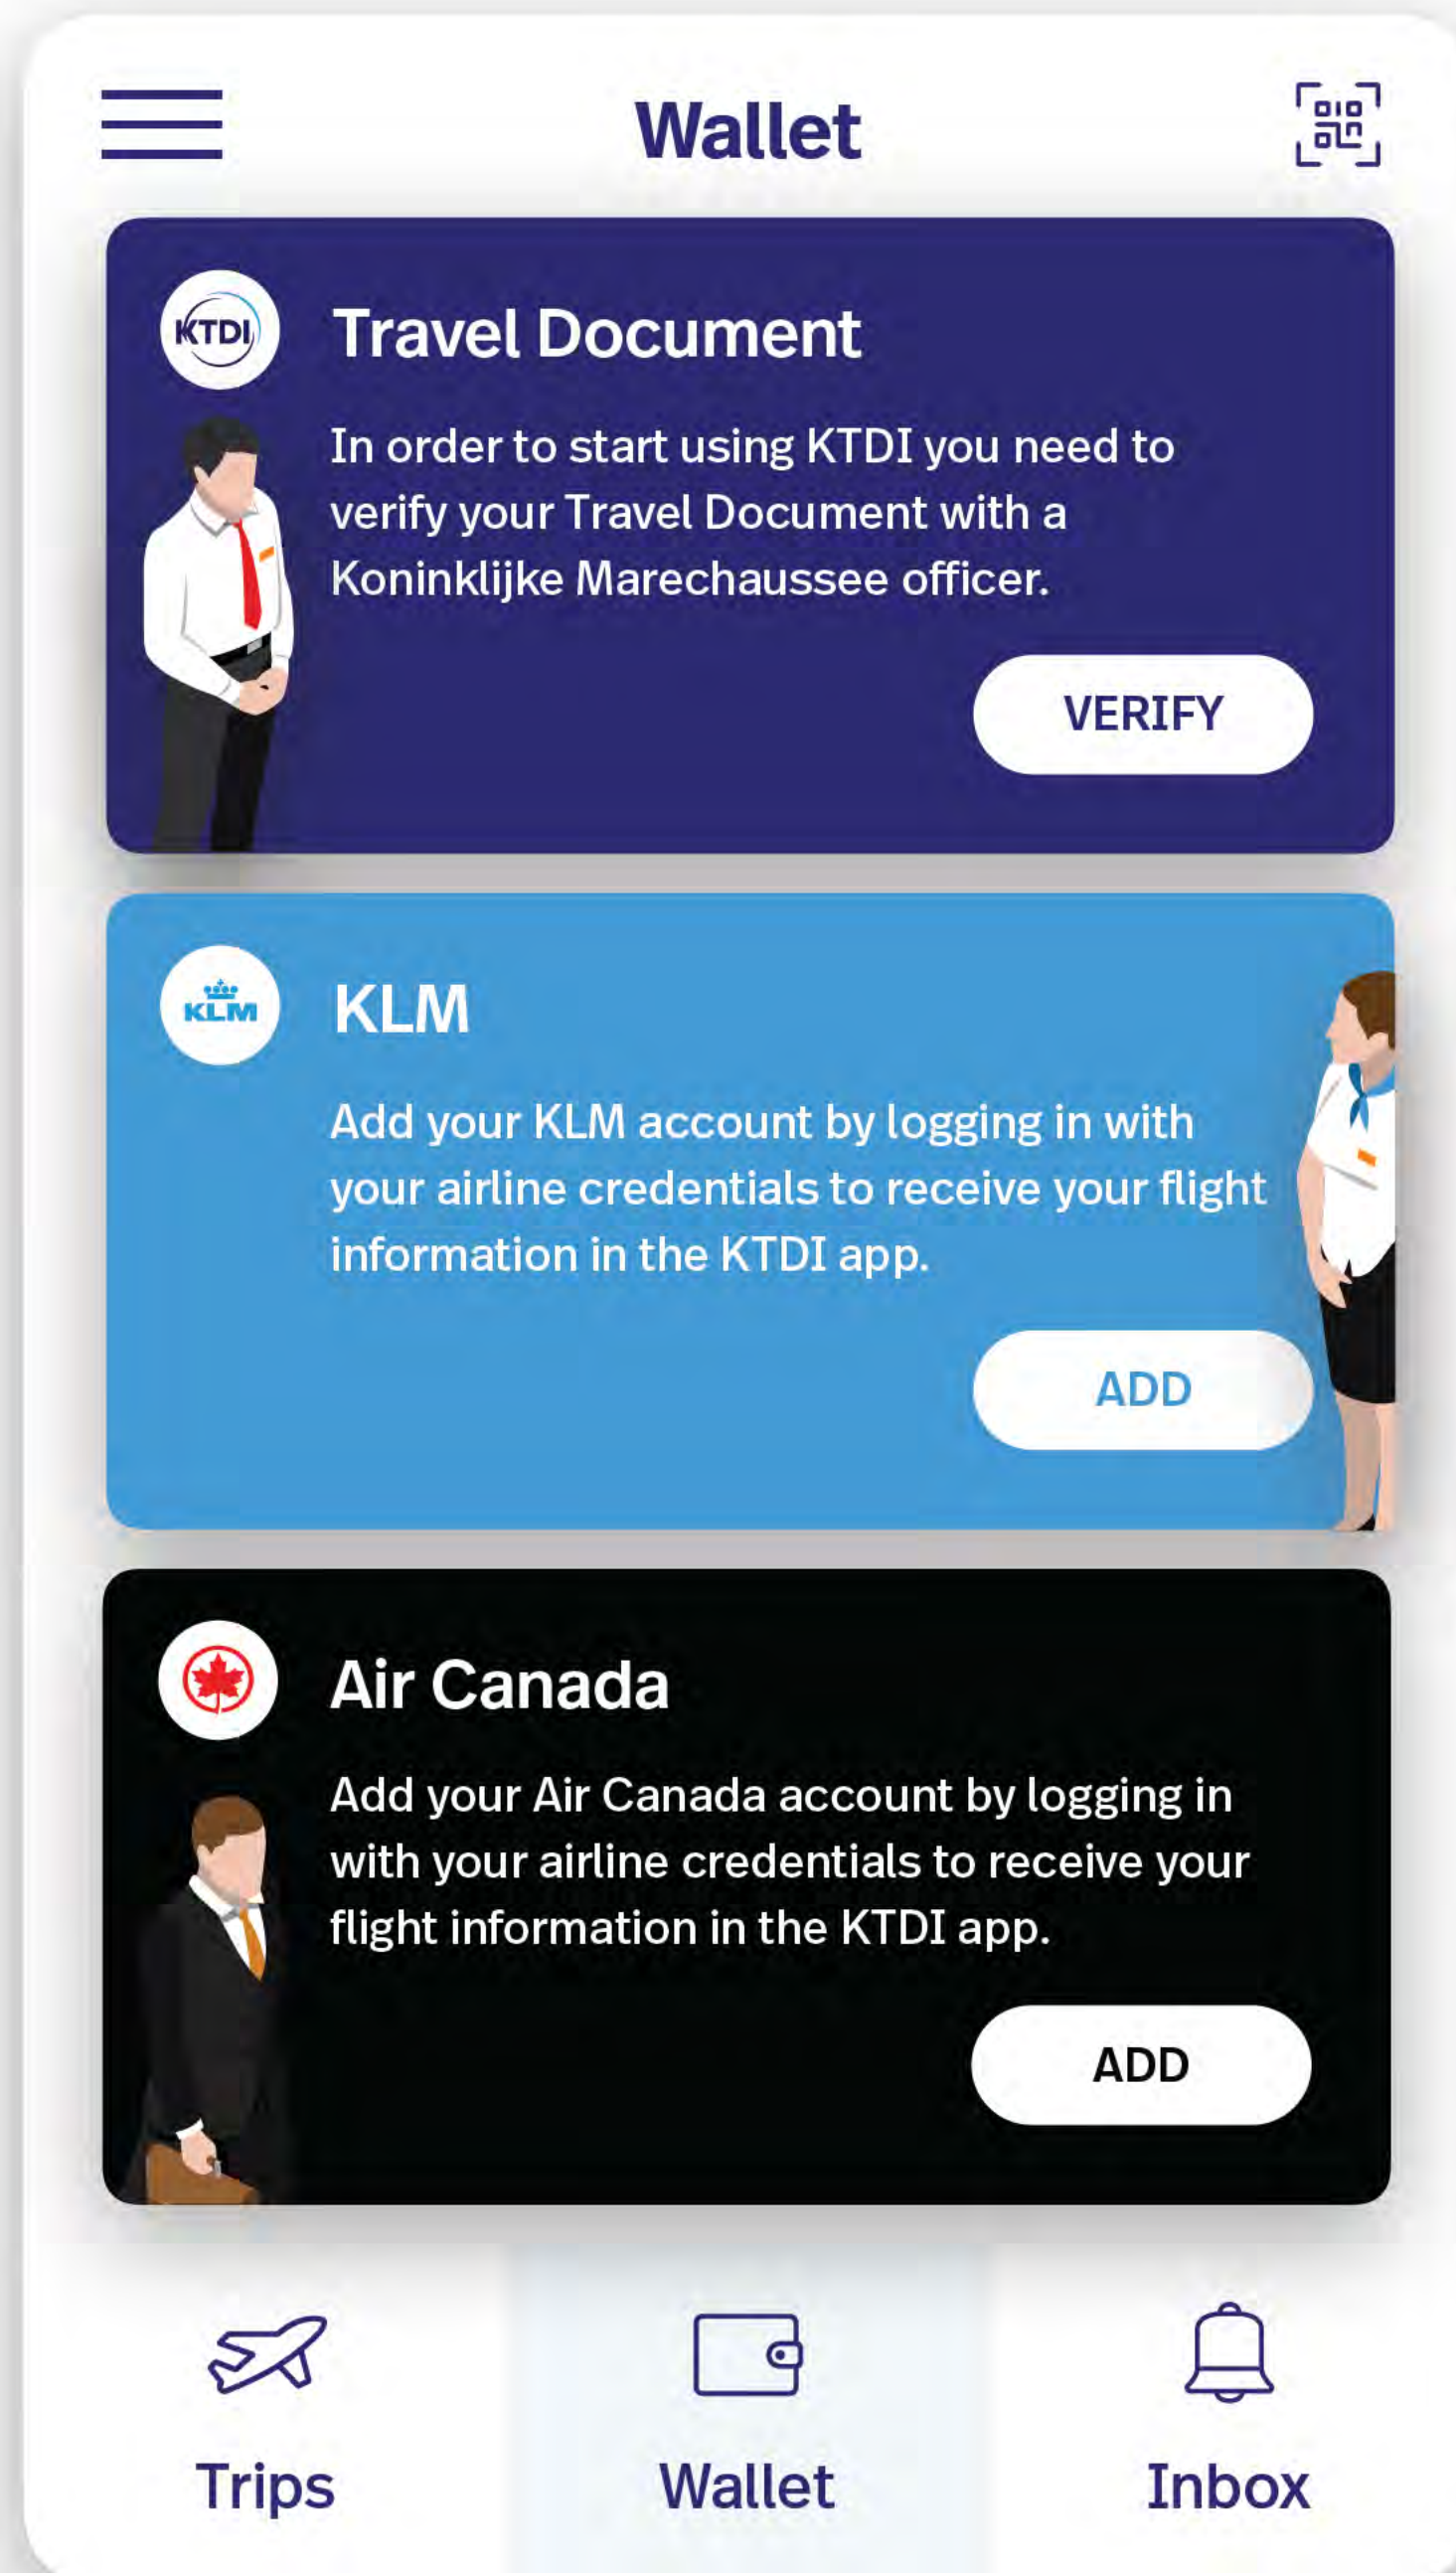

## Step 3

Scan the QR code presented by the officer to activate your Travel Document.

→ Frank has to scan a QR code presented by the KMAR officer with his KTDI app.

→ Frank explores "Add" on the KLM card to add his airline in order to automatically receive his flight information.

→ The airline informs Frank on how to add his KLM account.

×

RESEND

A photograph of the Schiphol Airport terminal entrance. The building has a large glass facade with the words 'Vertrek' and 'Departures' visible on the upper part. In the foreground, there are several people, some with luggage, and a row of circular planters containing greenery. A dark van and a dark sedan are parked on the right side of the image. The sky is overcast.

# Frank goes to Schiphol to catch his flight

- From the status screen Frank also has the option to Learn more about travelling with KTDI from Amsterdam to Montreal.
- Frank hits “learn more”.

Using KTDI at the airport

## Departure from the Netherlands

If you've prepared your flight, you are now ready to use the KTDI gates at the airport. Simply scan your face and continue through the gate.

After dropping off your bags, look for the KTDI icon at the security access gates in Departure Hall 2.

Staff will be present at every touchpoint to assist you, if you have any questions.

Schiphol Fast Track Security

## Security Access Gates at Departure 2

After bag-drop, find the the automatic gate on the **rightmost lane** at security access.

You will be able to spot some of the KTDI banners which will be able to guide you to the right gate.

An illustration on a dark blue background showing a person in a blue shirt and dark pants standing on a light blue path. A white arrow on the path points to the right. In the distance, there is a white KTDI banner with a screen and a scanner. The banner is illuminated with a light blue glow. The path is bordered by white dashed lines at the bottom.

Exit Immigration

## Rightmost Automatic Border Gate

After going through security, continue to the automatic border gates. Find the gate on the **rightmost lane** at border control.

Boarding

## Boarding Gate at Gate F5

When you are ready to board, continue to the rightmost lane at **Gate F5** to board with facial recognition.

**Frank touches down at  
Montreal airport.**

**KTDI**

Known Traveller Digital Identity

Hi Jenny, you have  
successfully set up  
your KTDI app.

Learn how it works

- Jenny is now ready to use the app.
- Jenny hits “Continue”.

## KTDI wallet

The wallet holds your Travel Document and Airline loyalty cards. In order to travel with KTDI you must activate both your Travel Document and an Airline loyalty card.

## Trips

View your Airline 24/48 hours before flight. Your flight data appears in the KTDI app under "Trips".

## Preparing your flight

Prepare to share data with KTDI before your flight to enjoy all the benefits. You can see an overview of parties requesting your data.

## Travel

Once you have been received you can travel between The Netherlands and Canada, between Montreal and Toronto airport.

- The app is now set-up and opens on the Wallet screen.
- Jenny needs to verify her identity in order to create her Travel Document.
- Jenny needs to add her airline in order to automatically receive her flight information.
- The app provides Jenny with a additional information for each step.
- Jenny starts with exploring “Verify” on her Travel Document card.

- The app explains the two options for Canadian and Dutch citizens.
- Jenny has a Canadian passport so she chooses “How to verify a Canadian Travel Document.”

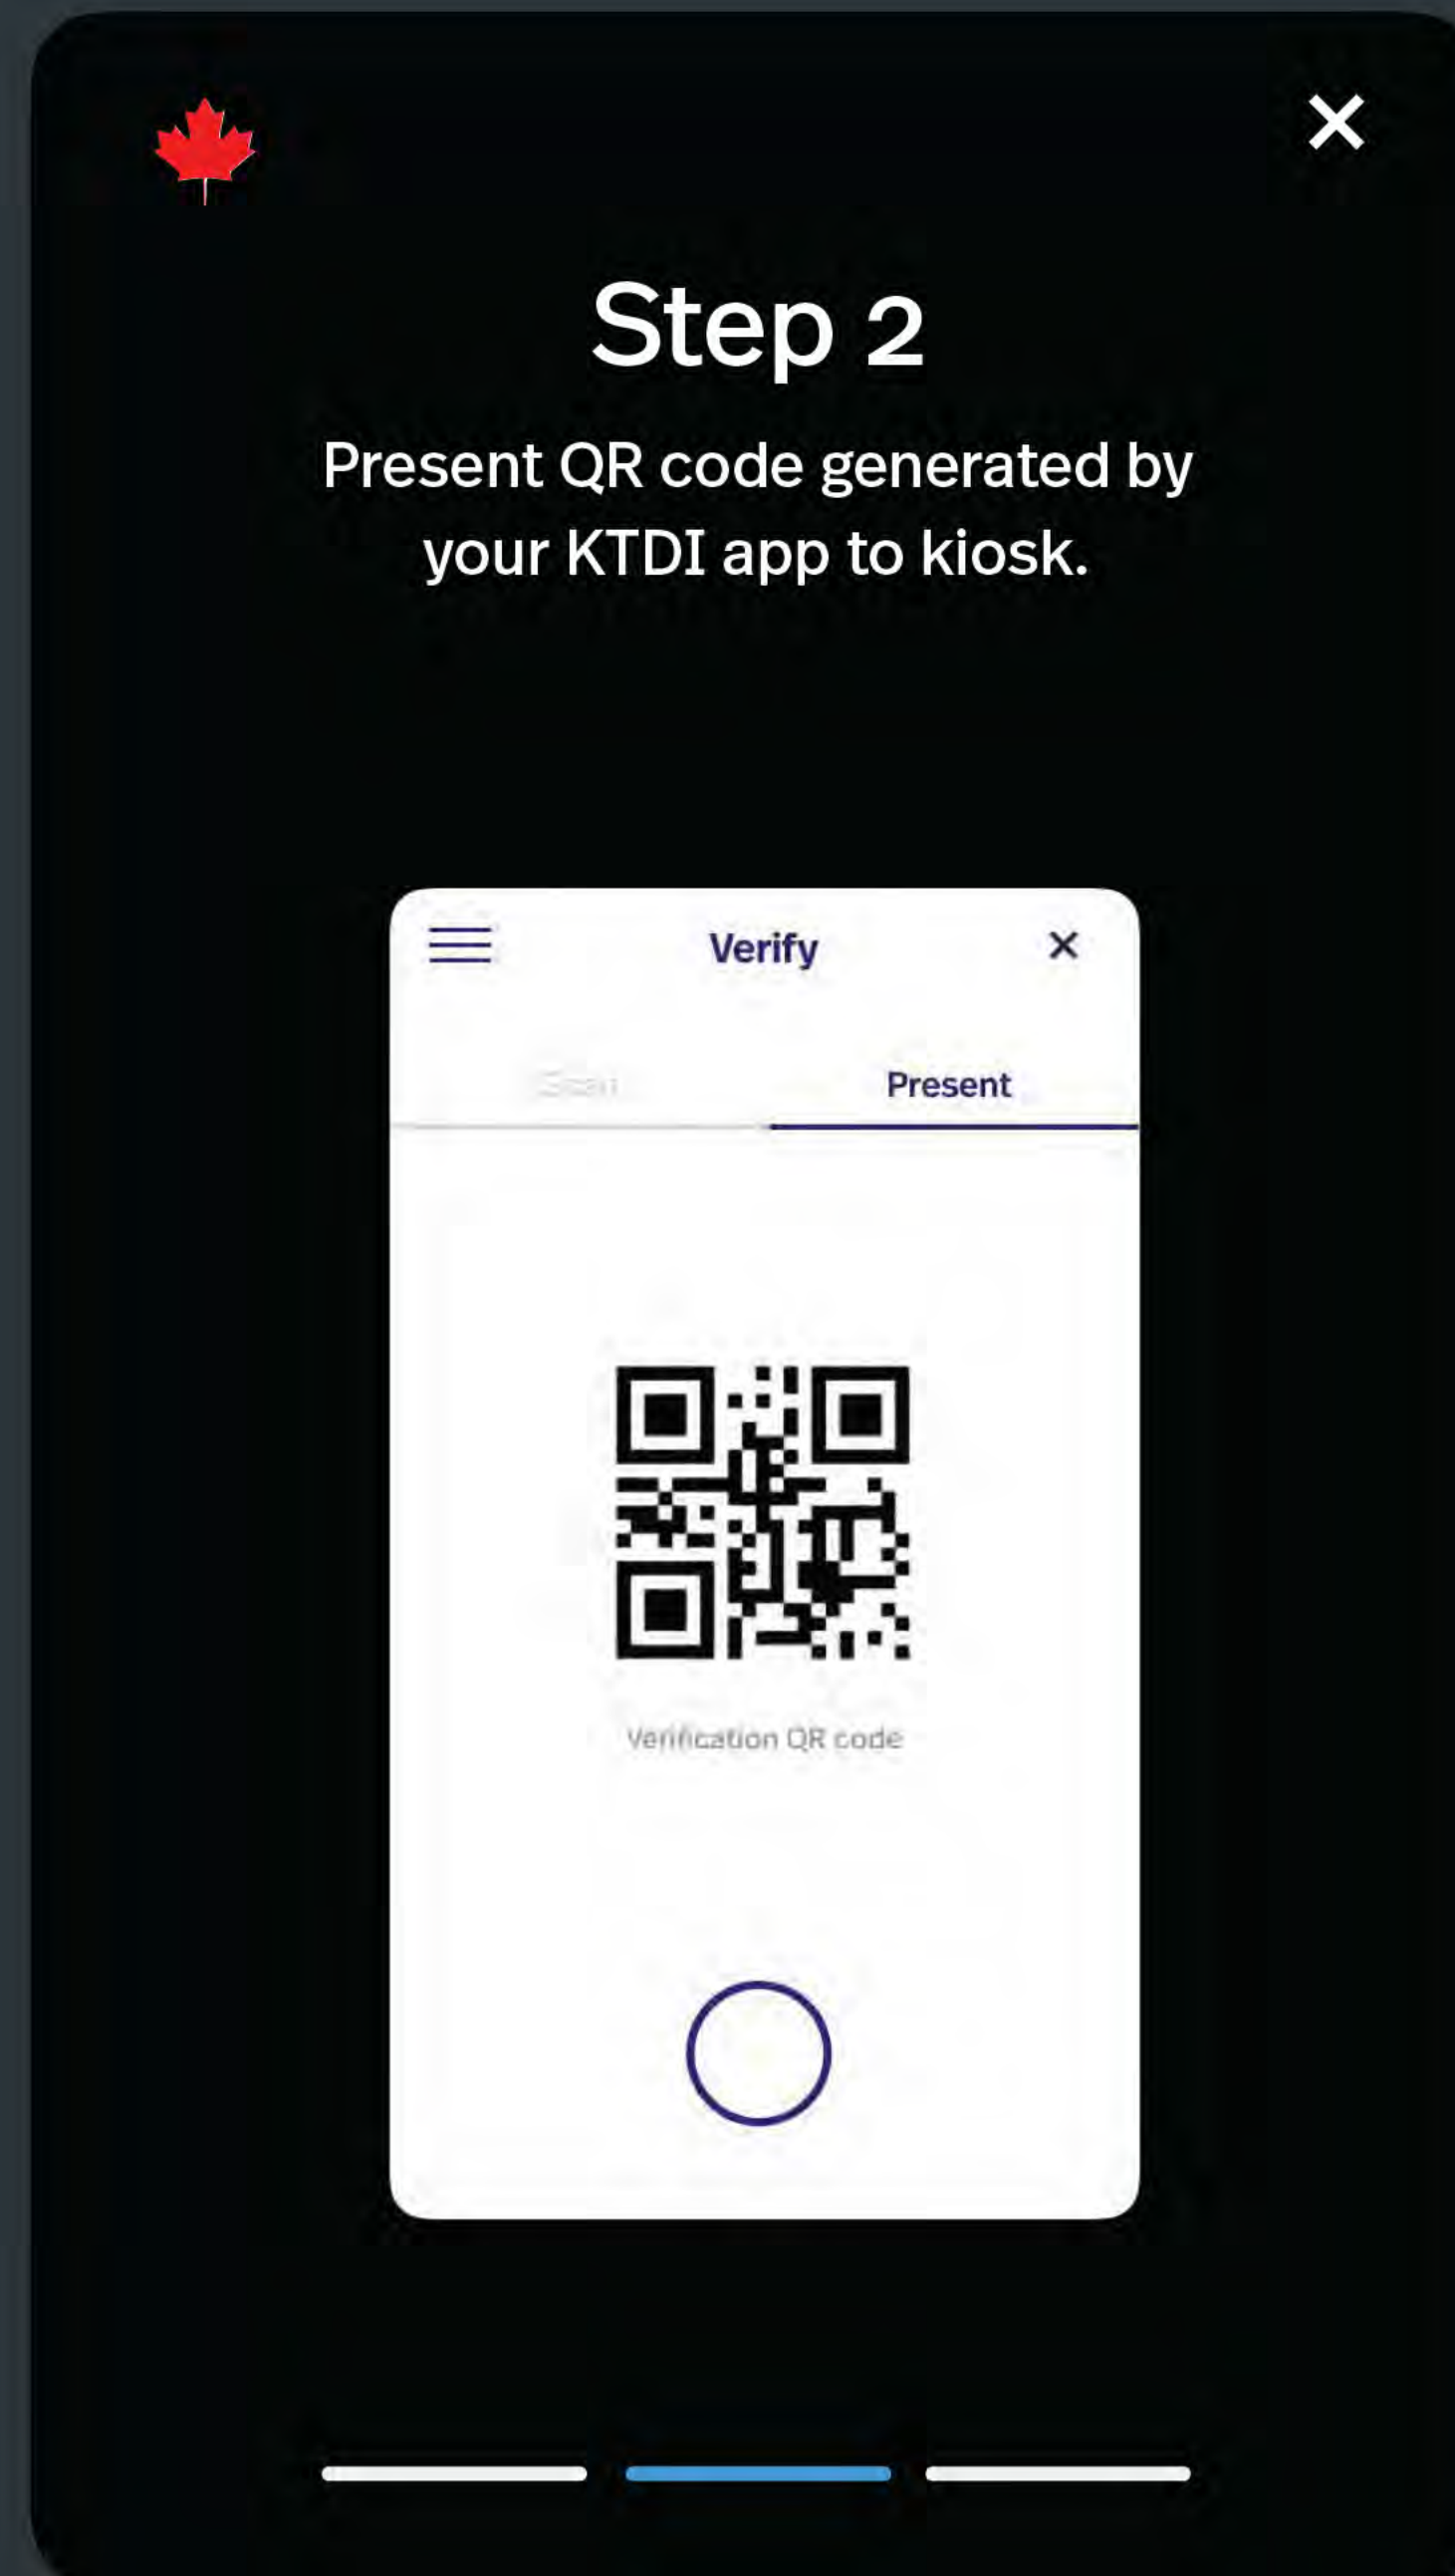

## Step 1

Go to the airport to visit KTDI enrolment kiosk.

The illustration shows a woman with dark hair, wearing a grey t-shirt, blue pants, and a brown shoulder bag, standing next to a white KTDI enrolment kiosk. The kiosk has a blue screen and a card reader. At the bottom of the screen, there are three horizontal lines: the first is blue, and the other two are white.

→ In order to activate KTDI Jenny has to visit a KTDI enrolment kiosk on the airport.

- At the enrolment kiosk Jenny has to present a QR code generated by the KTDI app.

## Step 3

The enrolment kiosk captures your passport and performs a face scan.

- The enrolment kiosk captures her passport and performs a face scan.

→ Jenny explores "Add" on the Air Canada card to add her airline in order to automatically receive her flight information.

→ The airline informs Jenny on how to add her Air Canada account.

×

## Add account

Booking reference

Last name

**Add**

→ Jenny links her KLM account to KTDI by providing her Air Canada booking information.

- Jenny successfully added her Air Canada booking to KTDI.
- The app is now able to receive required flight information.

A photograph of an airport terminal with a large white text overlay. The background shows a modern airport structure with a curved roof and glass walls. Several signs for 'Air Canada' and 'Jazz' are visible. A sign with the number '6' is also present. The text overlay reads: 'Time passes until Jenny visits Toronto airport for activation.'

Time passes until  
Jenny visits Toronto  
airport for activation.

# Create travel document at the enrolment kiosk

→ Jenny visits the KTDI enrolment kiosk at the Airport.

-  Go to the airport to visit KTDI enrolment kiosk.
-   
 Present QR code generated by your KTDI app to kiosk.
-   
 The enrolment kiosk captures your passport and performs a face scan.

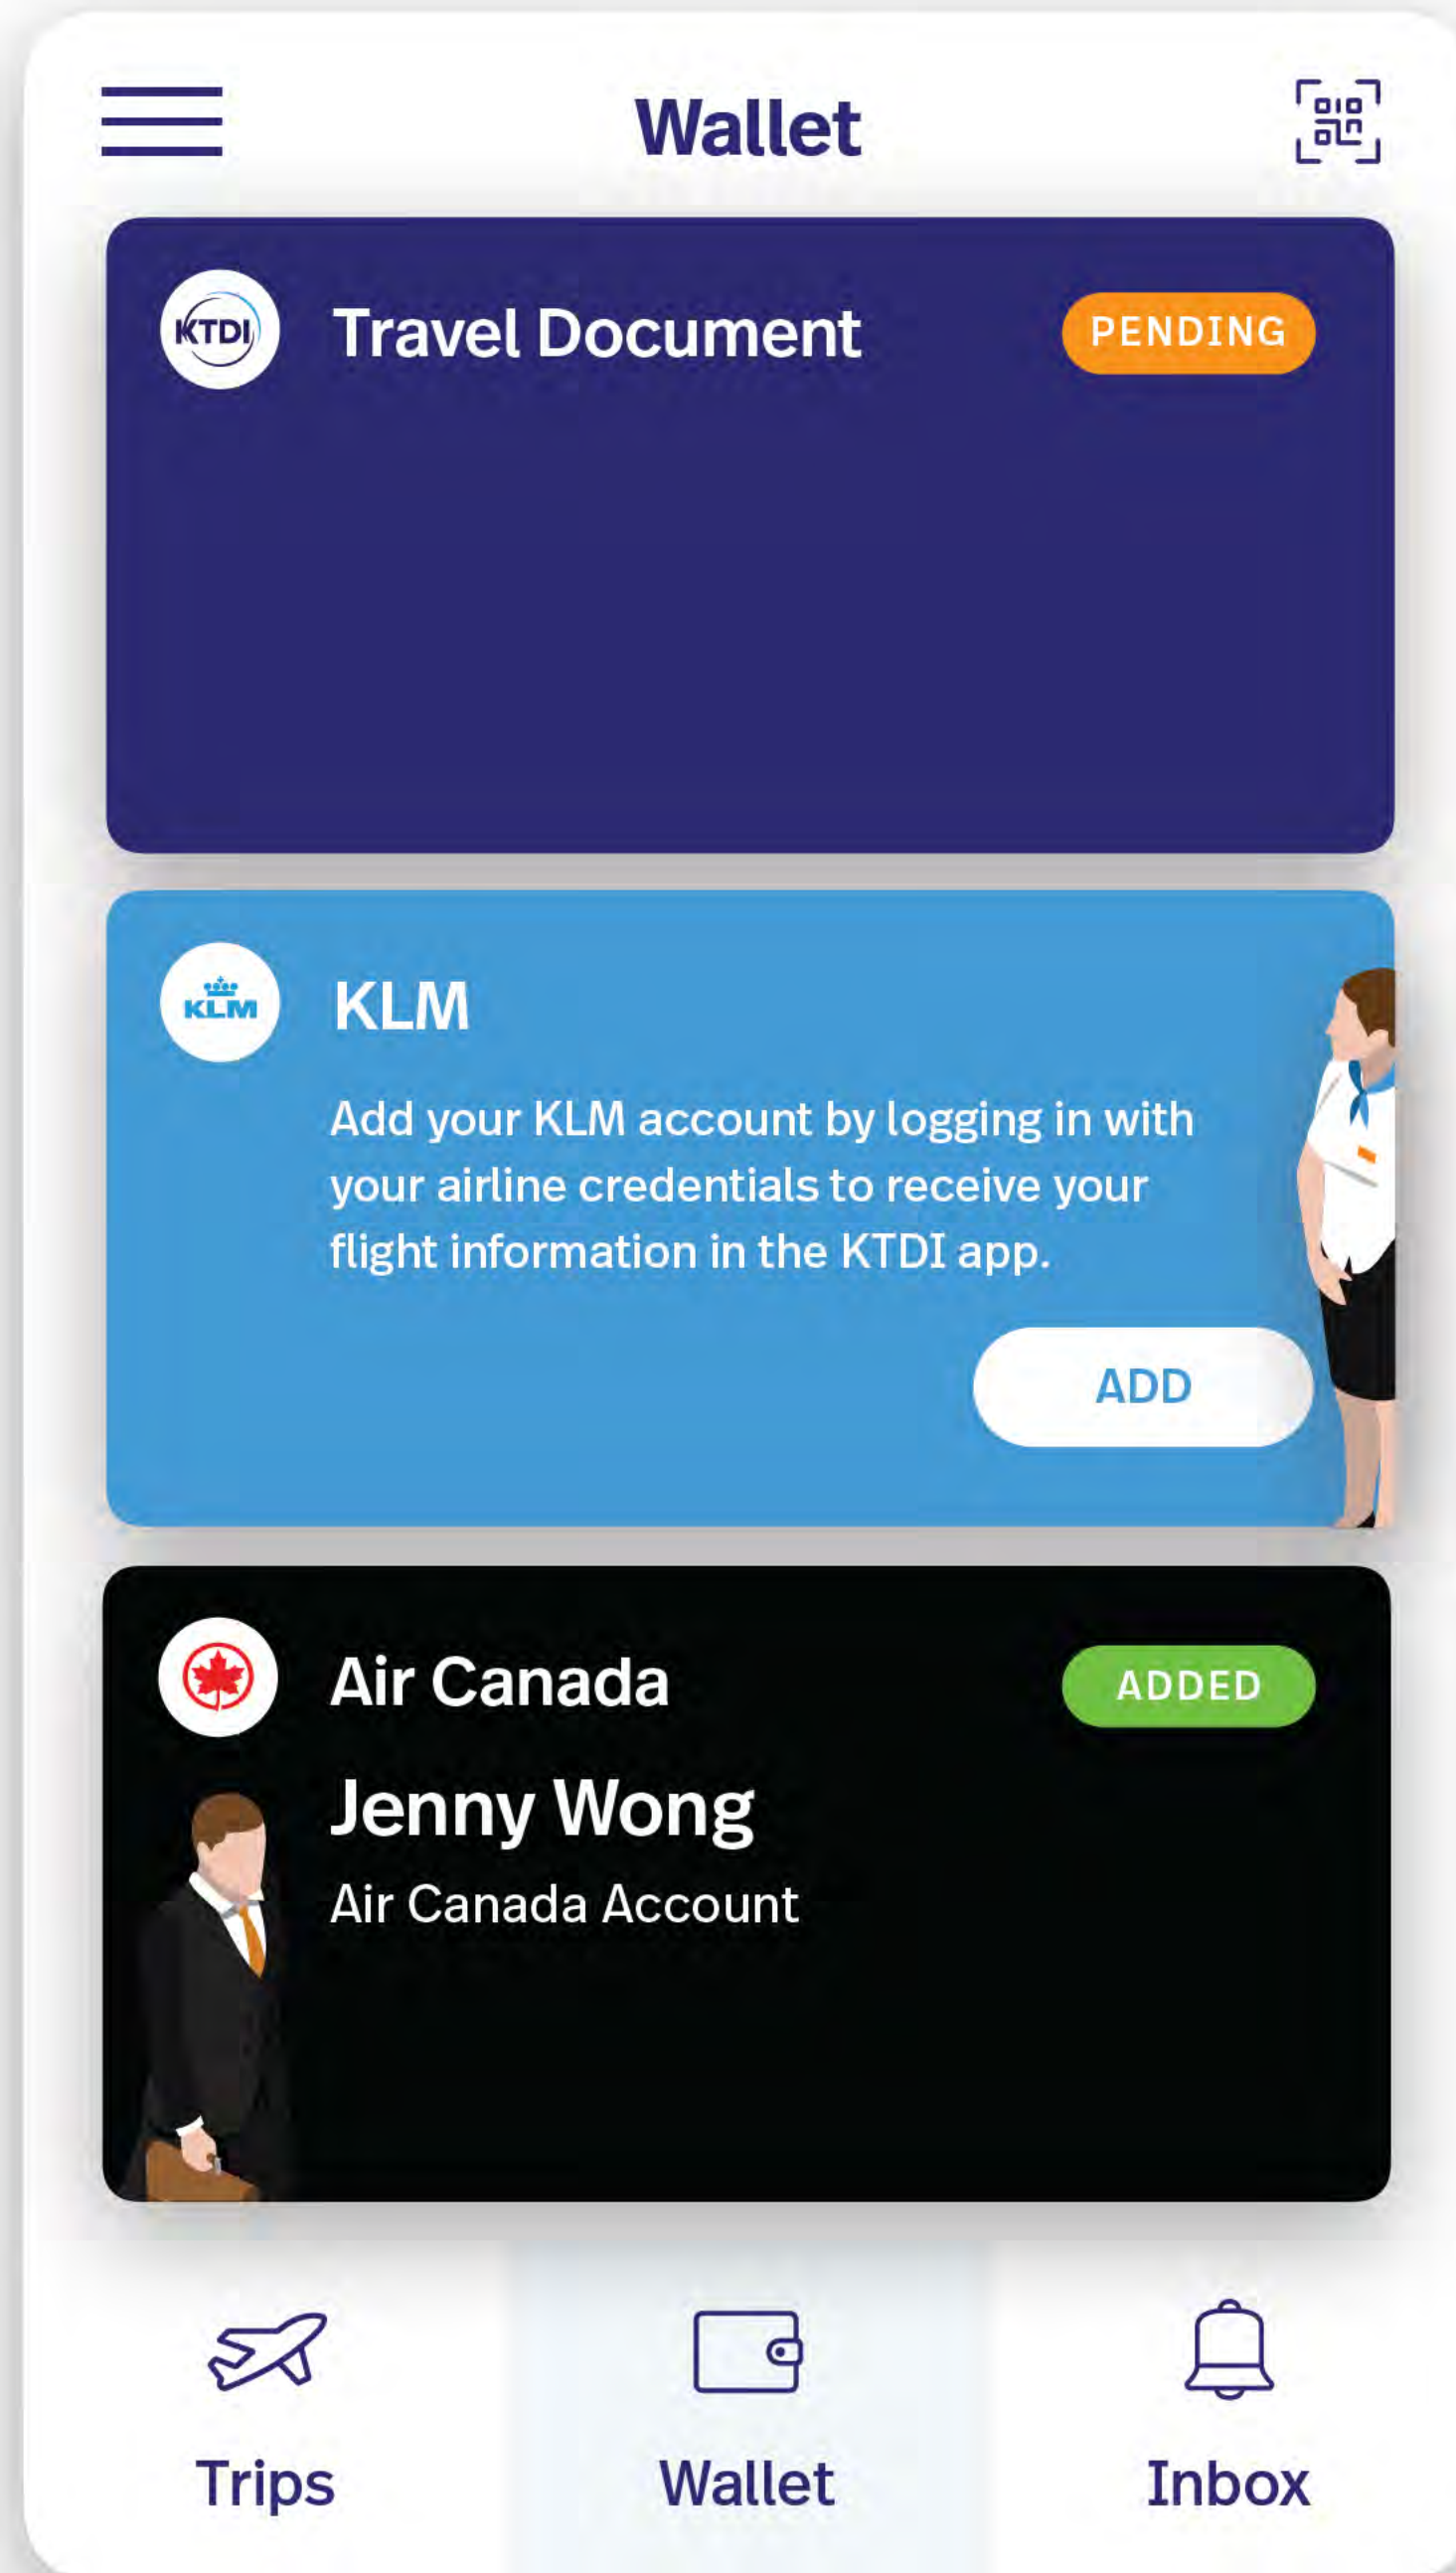

→ Jenny opens QR scanner/  
presenter.

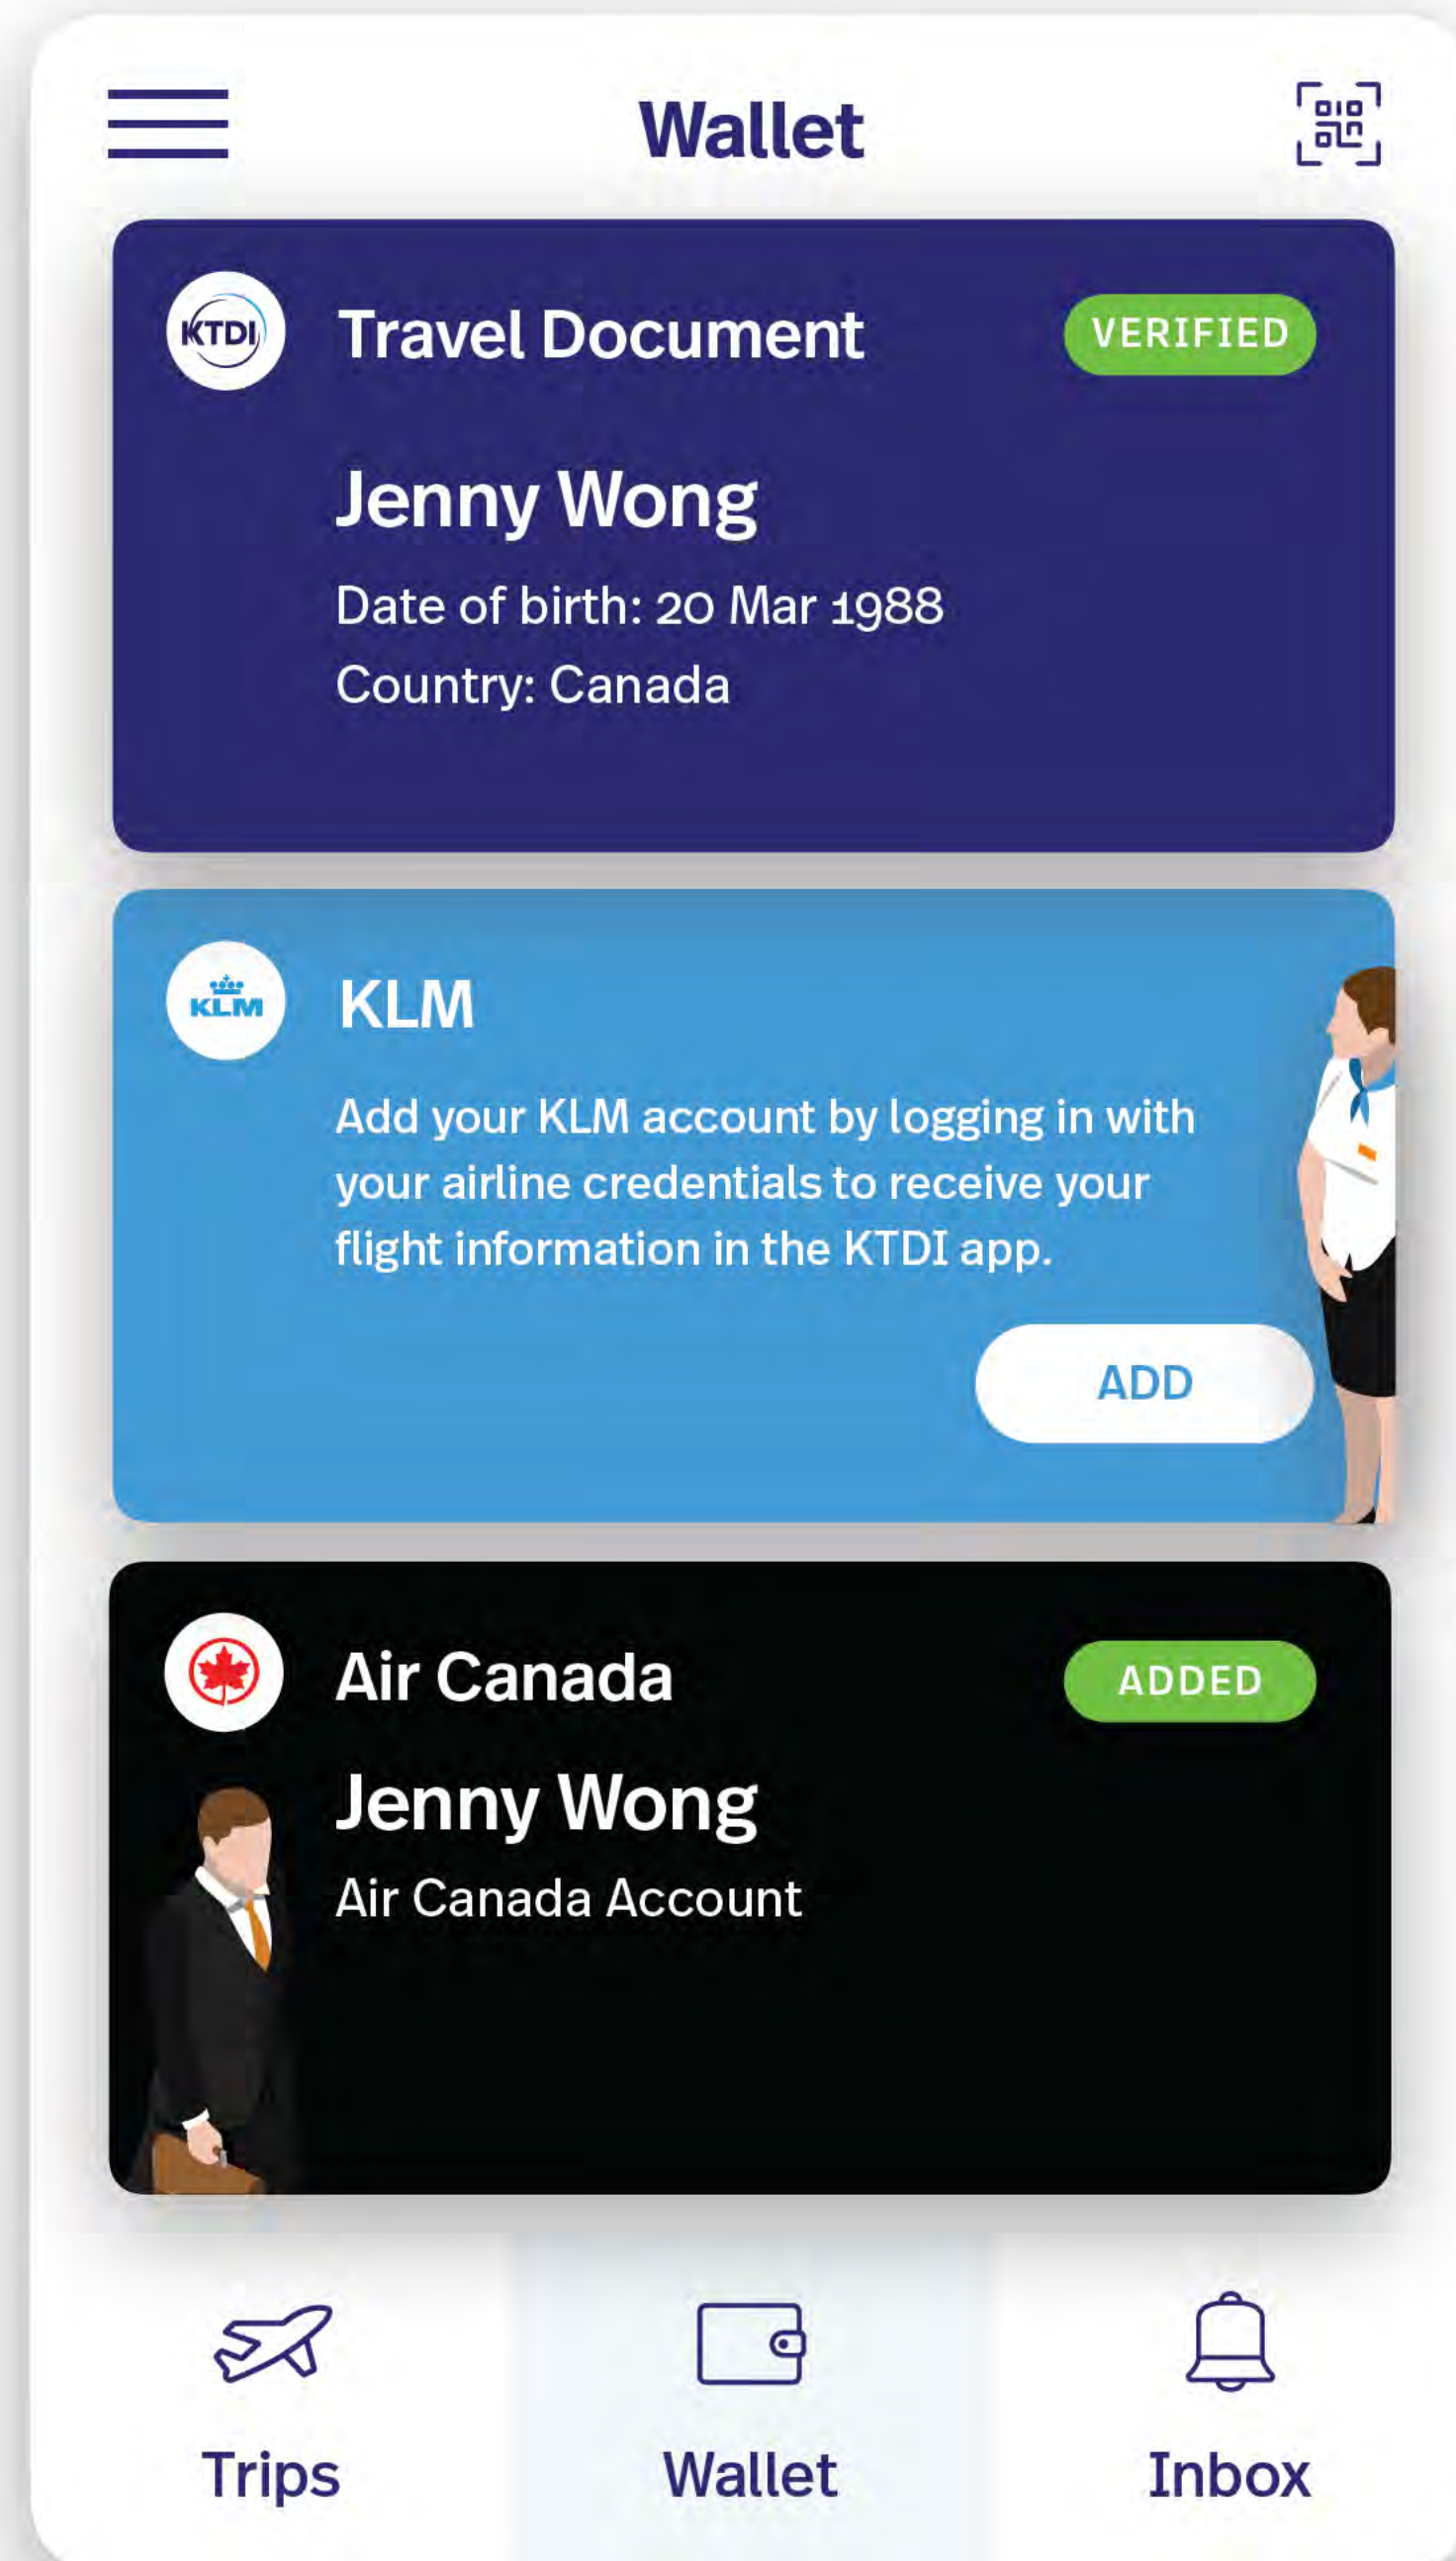

→ Jenny presents the QR code to the kiosk.

→ Jenny's travel document is now pending.

- Jenny's travel document is now verified and activated.
- Jenny added her airline account and created her Travel Document and is now ready to use KTDI to travel.

A modern living room with a brown leather sofa, a wooden coffee table, and a kitchen area in the background. The room features large windows on the left, a white armchair, and a black leather chair. A cowhide rug is on the floor. The text "Time passes till check-in with airline" is overlaid in the center.

→ Jenny can access information on how to use KTDI at Amsterdam airport.

## Test results

# Results of the conducted usability test.

We've tested the approved UX flow with 5 users in order to validate the proof of concept.

# Objective

- Determine whether users understand the KTDI process
- Identify usability problems
- Evaluate the value and willingness to participate

**KTDI**

Known Traveller Digital Identity

Enjoy all the benefits of future travel with a digital ID.

**KTDI**

Overview

**Test Set-Up**

Key Takeaways

Conversion

Recommendations

**Test set-up**

# We interviewed 6 frequent flyers

## **6 participants**

4 females and 2 males

Ages: 23-31

## **Frequent Flyers**

On averages 6 times a year, for pleasure and work

## **Range of jobs**

Each participant had a different job title, ranging from students to designers to a social media specialist.

## Test set-up

# Participants were asked to perform specific tasks

E.g. “If you wanted to sign up, how would you go about doing that?”

### Materials

Clickable Prototype  
(Phone)

Storyboard (Ipad)

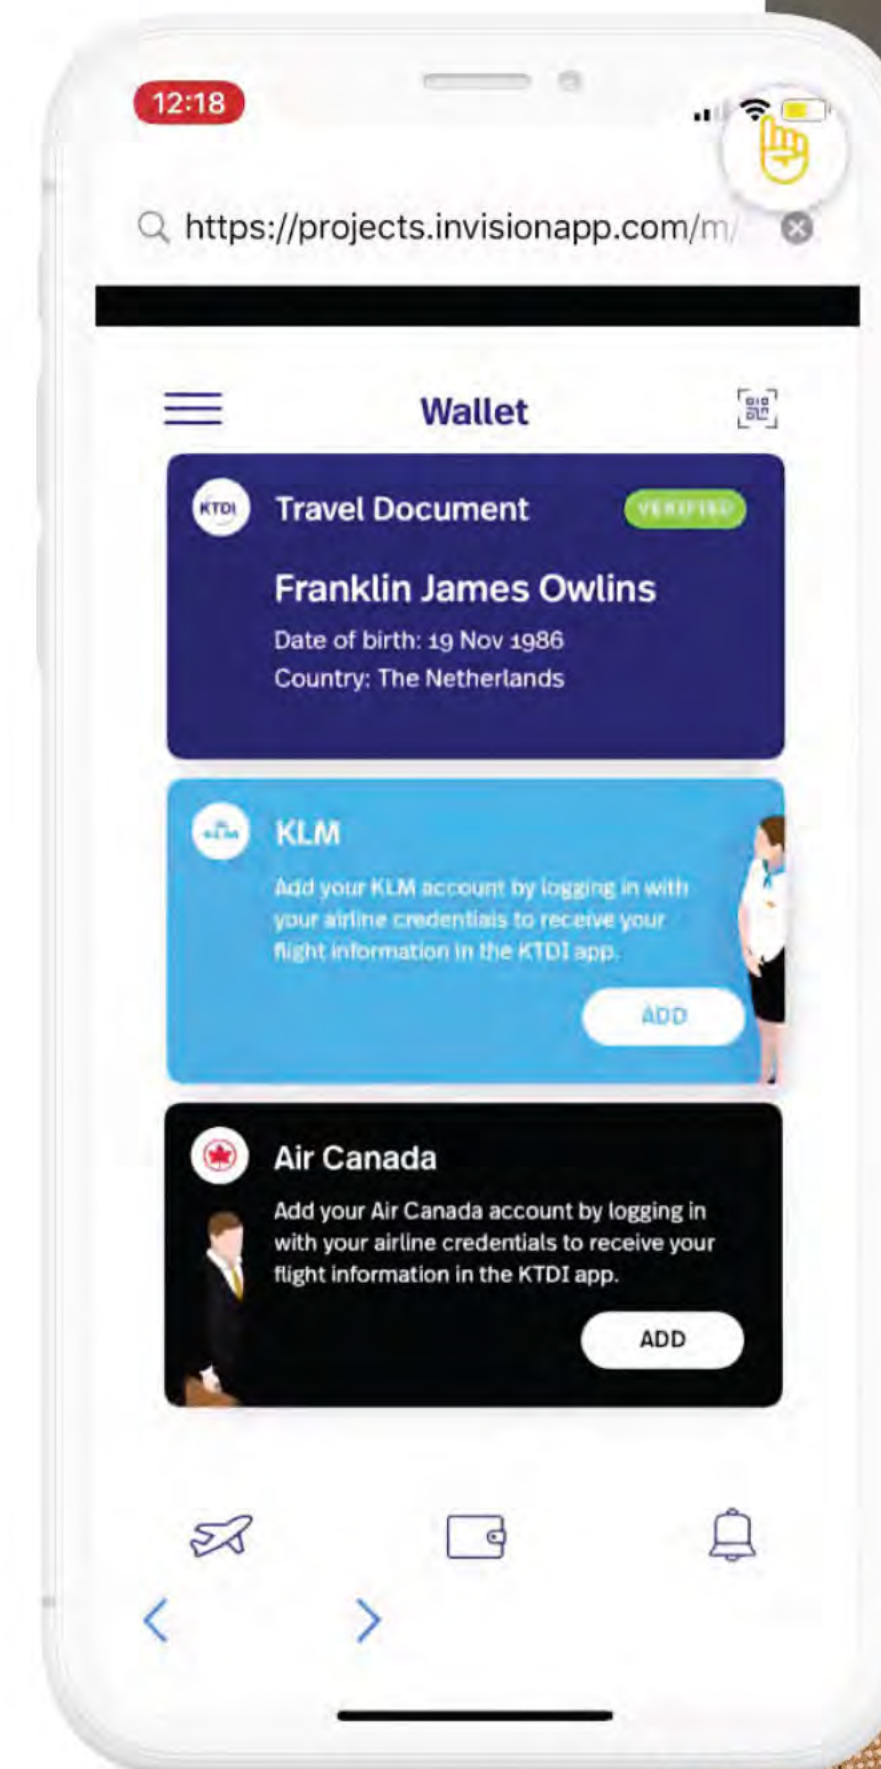

Record - Lookback  
(Laptop)

### Process time

1 hour

### Location

Edenspiekermann  
office or remotely

**KTDI**

Overview

Test Set-Up

**Key Takeaways**

Conversion

Recommendations

## Key takeaways

# Everyone wants a more efficient journey

**“The concept is awesome. If I can do something digitally to enhance my life, why not. I’m all for this. I just wish it’s in more airports.”**

6/6 want a quicker journey, especially at an airport

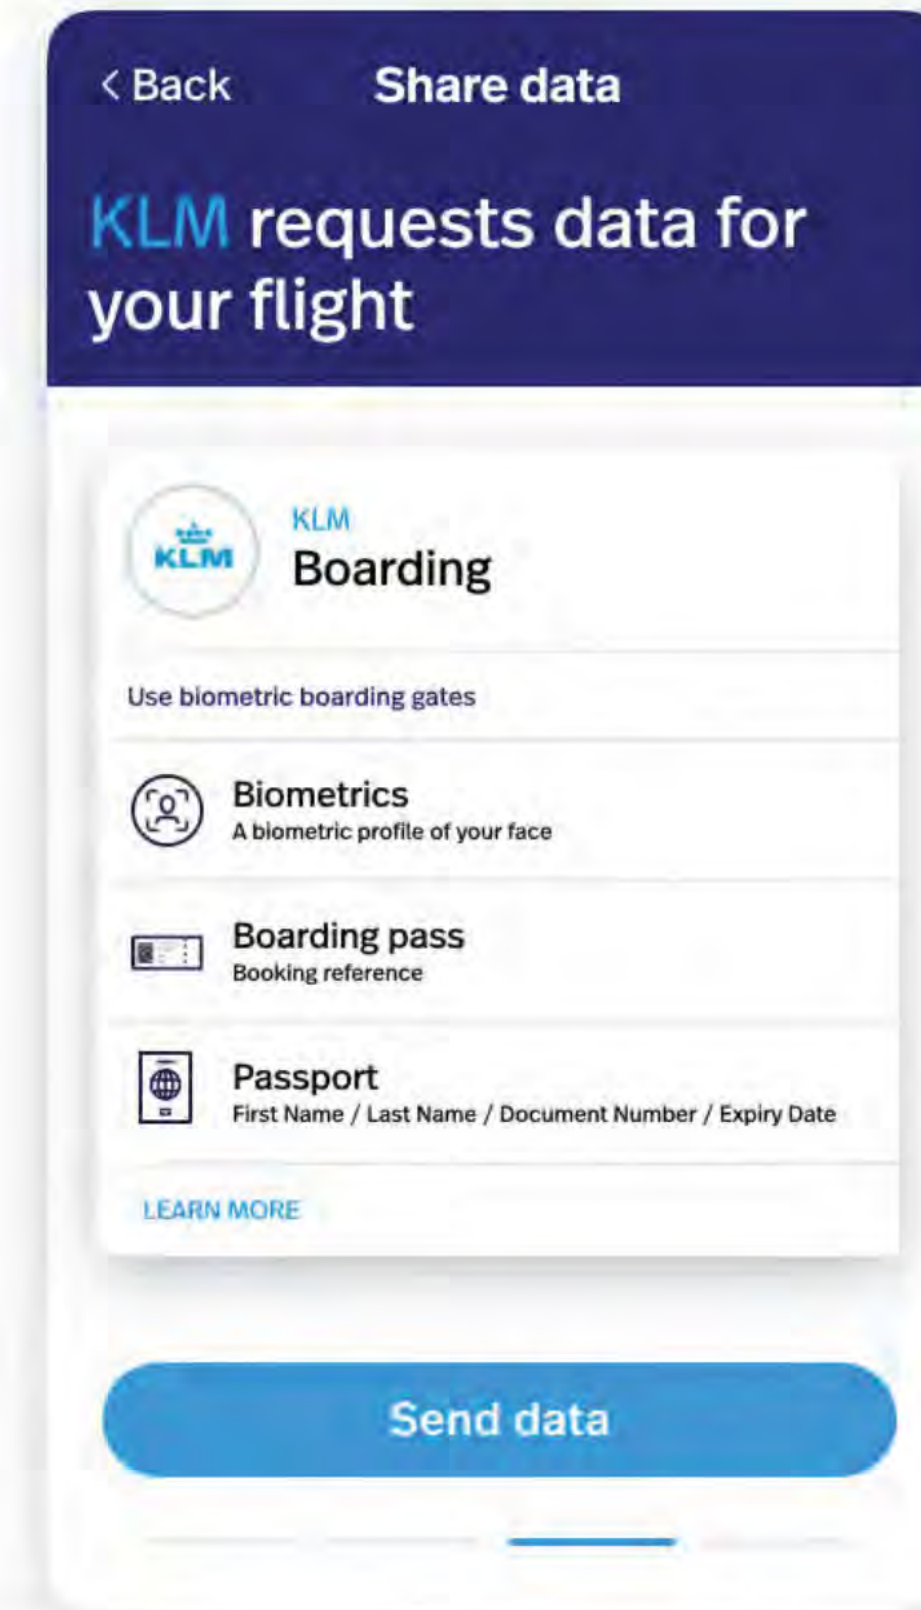

## Key takeaways

**While it's worth it, there are quite a few steps to take**

**“There are a few steps but it will be beneficial in the future if I put the time in now”**

2/6 thought you had to be quite involved to get the benefits

## Key takeaways

# Some have concerns about how data is secured

**“I would maybe include somewhere (...) ‘be aware you’re sharing your travel ID data. We’re doing our very best to protect it’.”**

2/6 had concern about data sharing and how it’s stored

## Key takeaways

# Not everyone is willing to go to Schiphol twice

**“If you have to go on separate occasions, I would probably find it inconvenient.”**

2/6 aren't willing to go to Schiphol on two different occasions

## Key takeaways

# The app is straightforward and visually appealing

“I like the visuals of the gate part, I think that was helpful that it didn’t just tell you what to do but showed you what to do.”

6/6 felt the app was straightforward and visually appealing

**KTDI**

Overview

Test Set-Up

Key Takeaways

**Conversion**

Recommendations

## Conversion

**100%**

**Understood and  
completed tasks**

6/6 understood each  
touchpoint

**100%**

**Believed it was a  
valuable process**

6/6 thought it was a  
valuable process

**67%**

**Would partake  
in this process**

4/6 would partake in the process  
2/6 were skeptical because they  
had to go to Schiphol twice.

Note: This conversion data is not statistical, but used as a quick overview of what was indicated during the usability test.

**KTDI**

Overview

Test Set-Up

Key Takeaways

Conversion

**Recommendations**

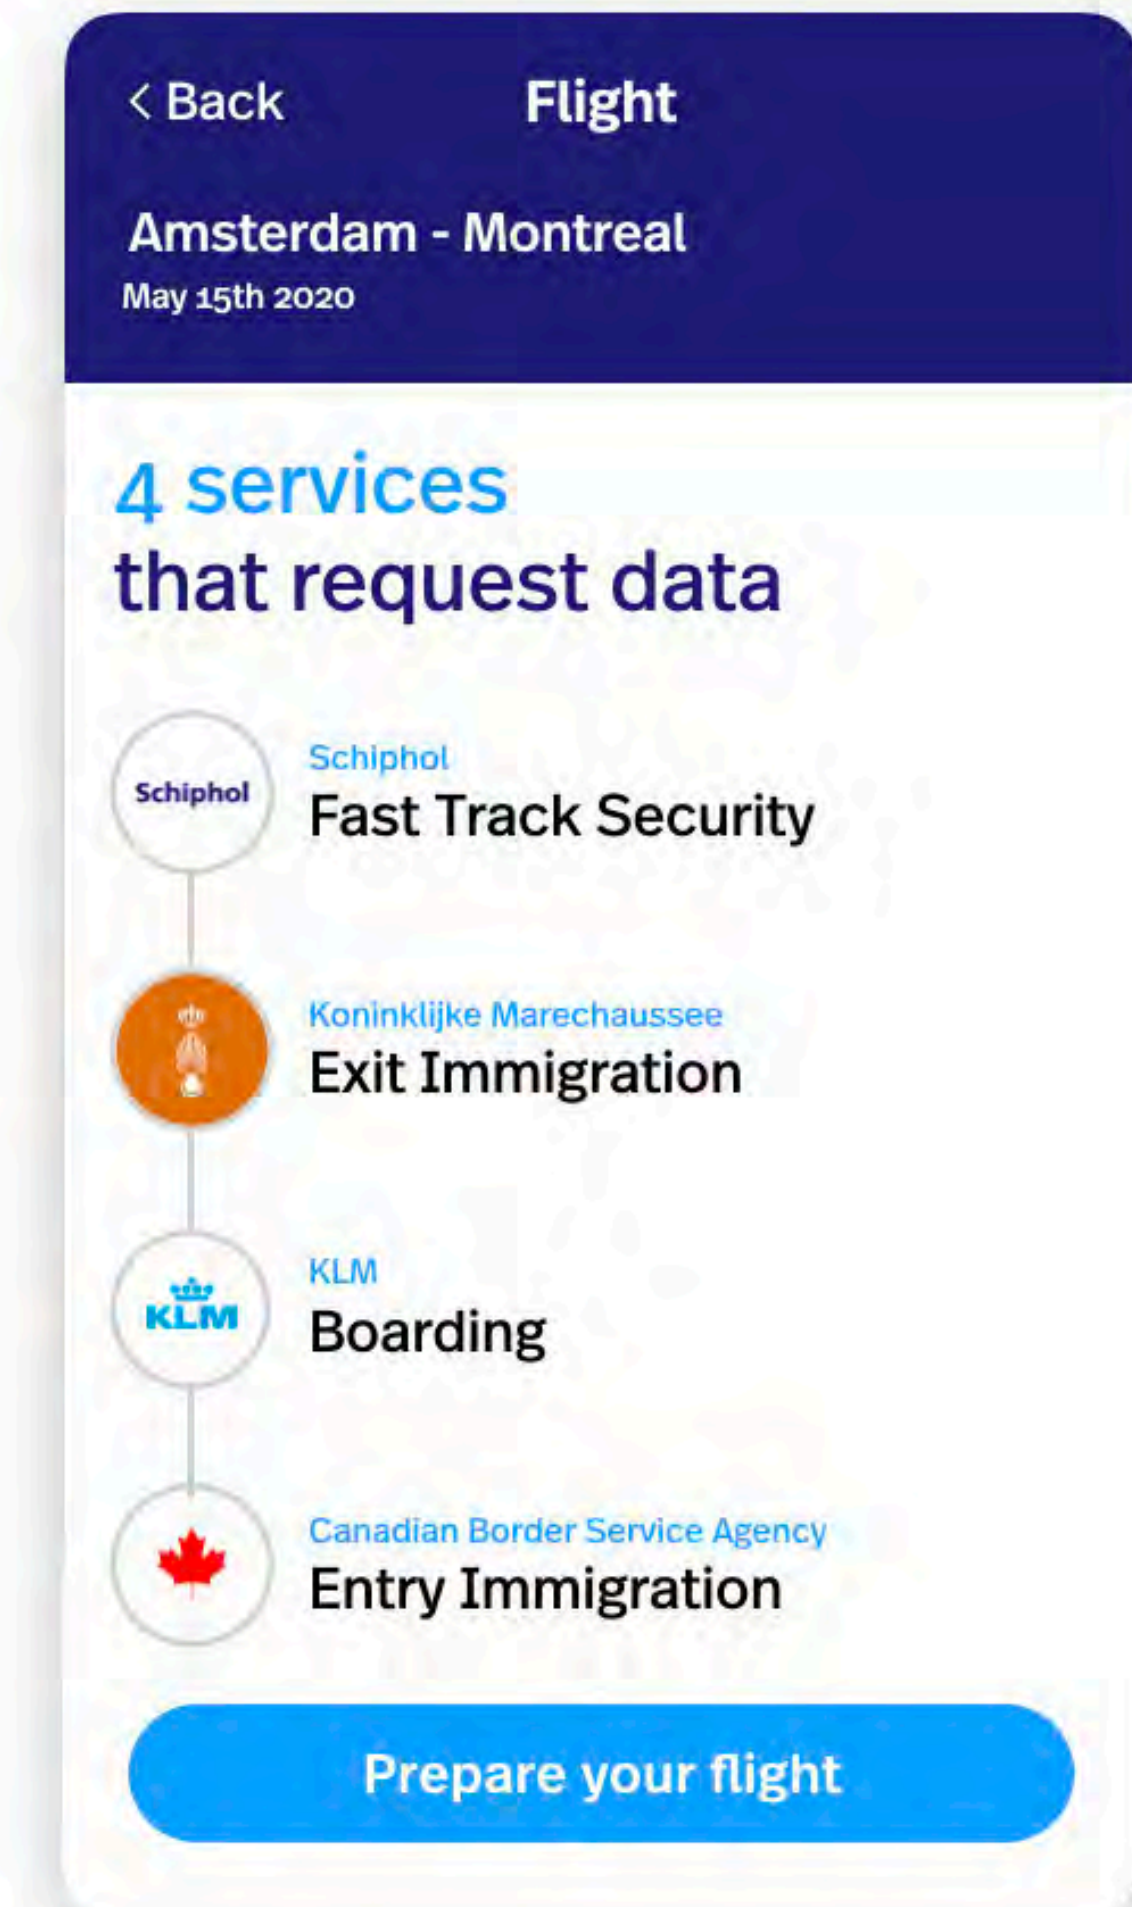

3 key areas for improvements

1. **Security Concerns**
2. **Navigation**
3. **Inbox**

## 01 | Security concerns

# More explanation about sharing data

A suggestion by a participant was to include an extra pop up message regarding sharing data (some concerns about data protection). It would be nice to be more transparent about how the data is secured at this point.

## 02 | Security concerns

# Opt-out option

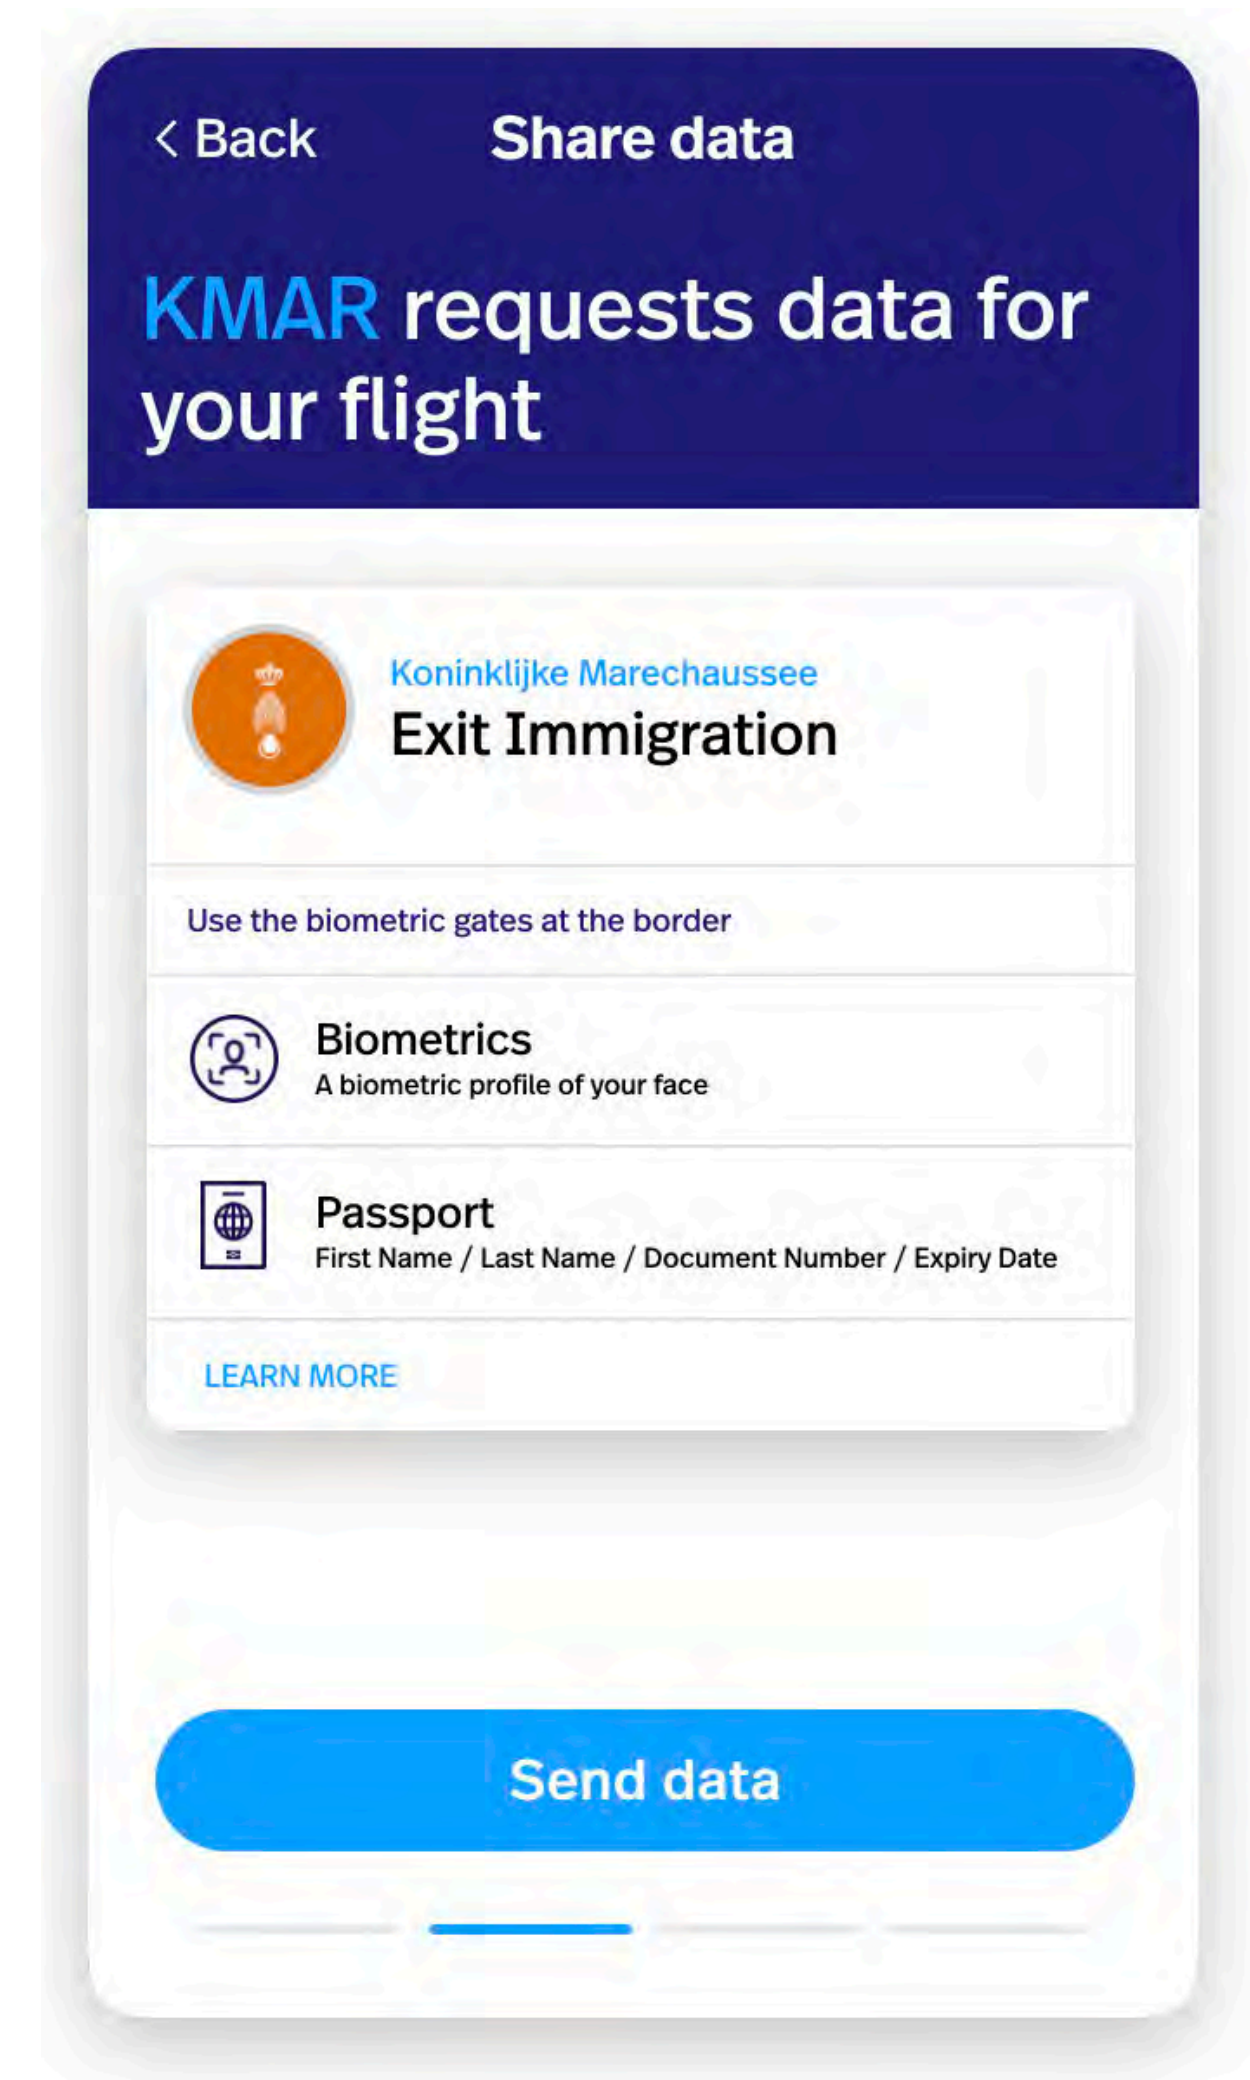

Some users would like an opt-out option at any stage of this process.

## 03 | Navigation

# Hidden navigation

Some parts of the app you are forced to move forward or go back. However, it doesn't give you the option to go back to the wallet or trips if you want to complete specific tasks later. Therefore, it was suggested to include a few more buttons to navigate through the app.

## 04 | Navigation

# 'Learn More' feels misplaced

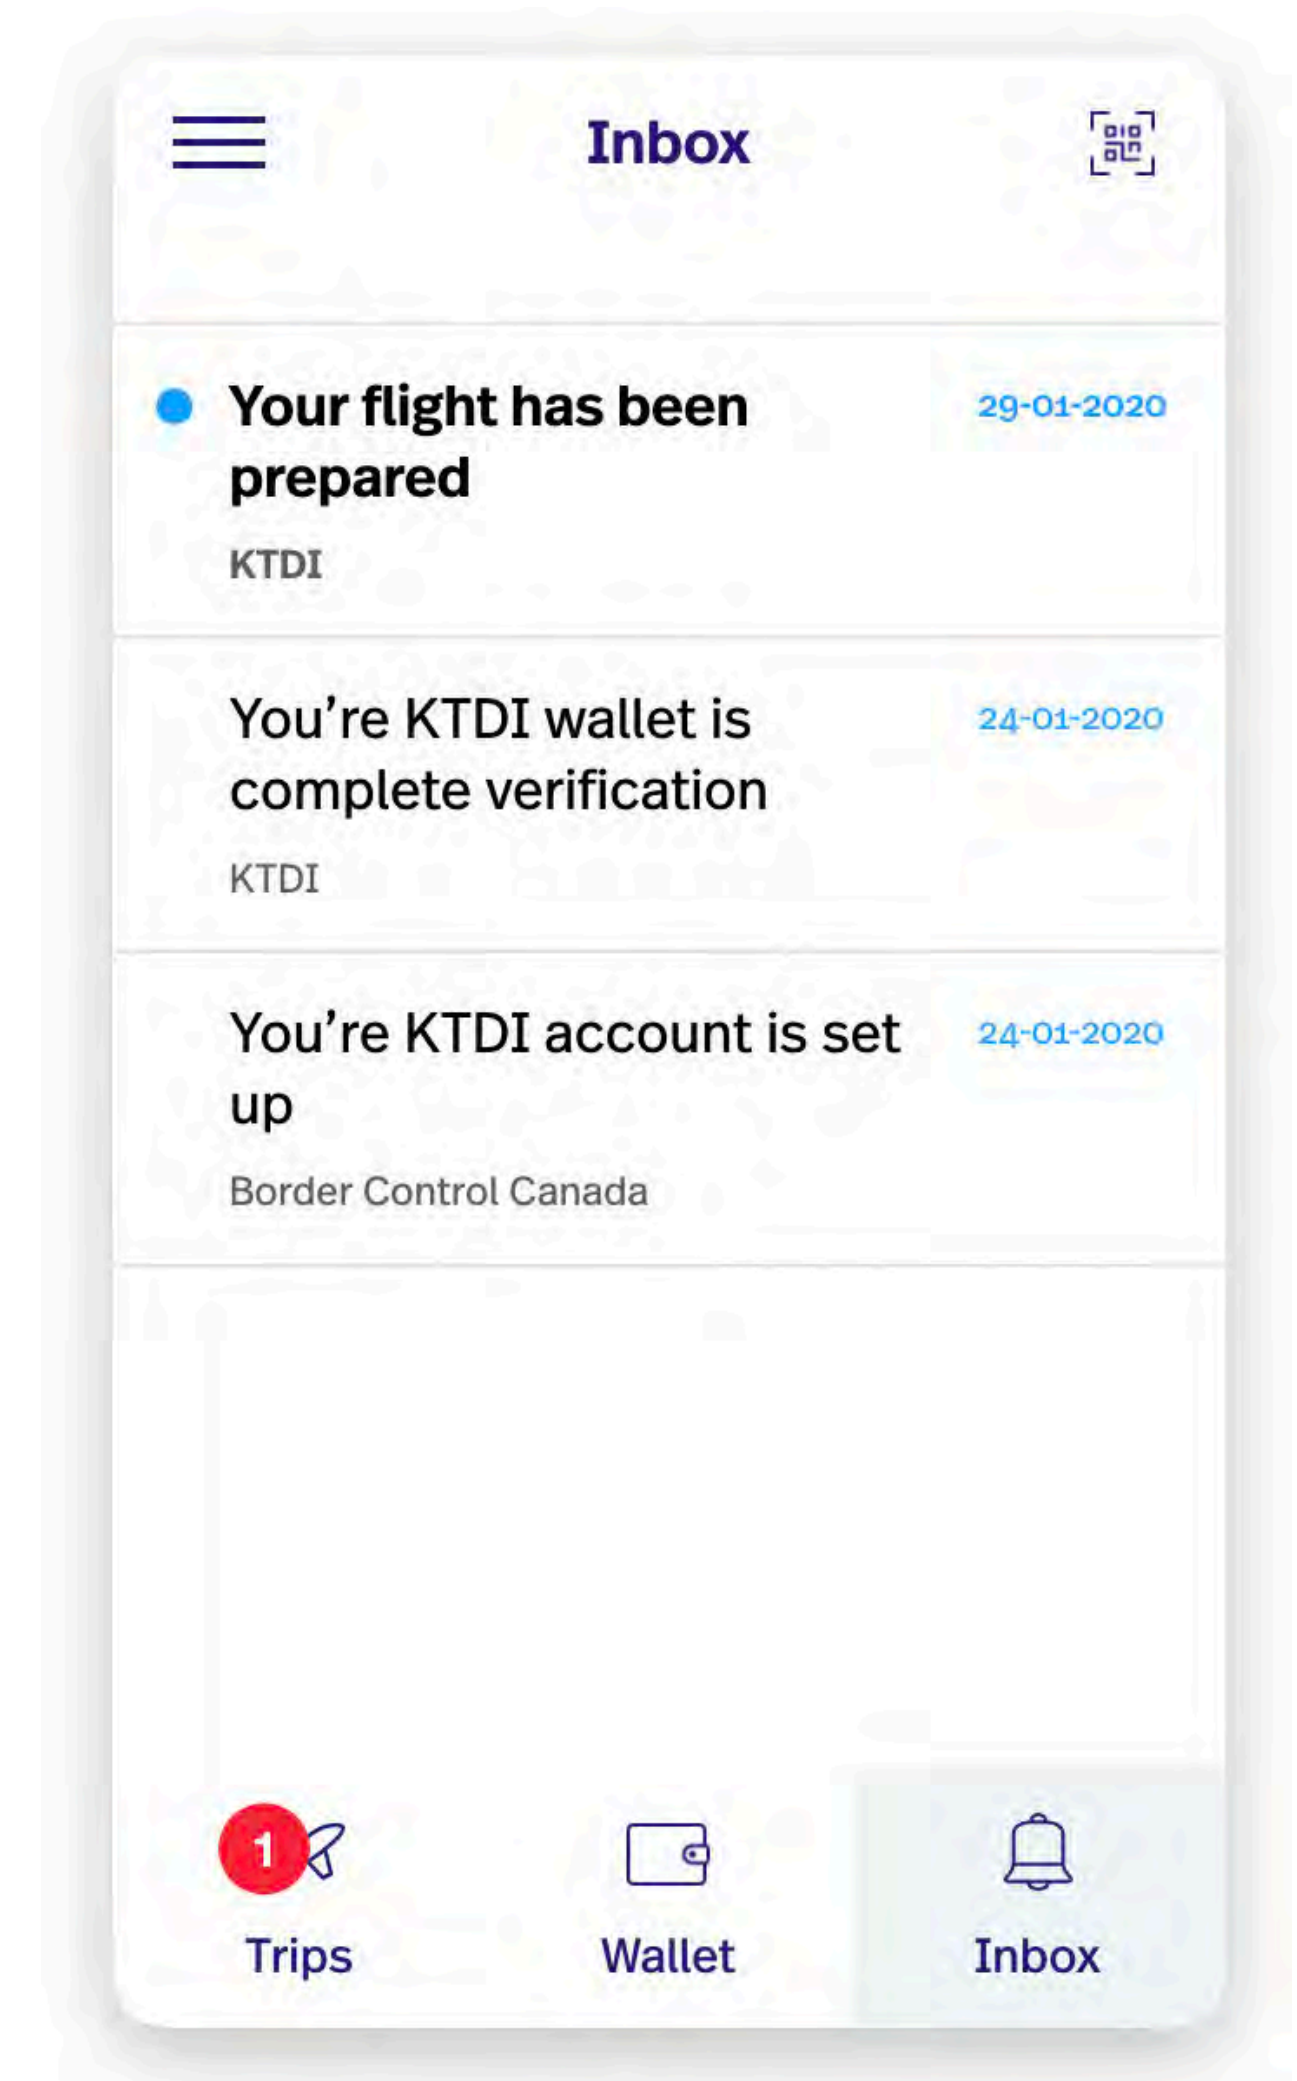

An overview with all the green checks makes a person feel content, and therefore may not feel the need to press on learn more. However, with the navigation missing, there isn't another choice to move forward like clicking on wallet or trips.

## 05 | Inbox

# Inbox feels irrelevant

This part of the app could be used differently instead of used as a confirmation message. Users didn't seem to be interested in the inbox, even with the red tick. And if they are going to open it, they would want to see if something is incomplete.

**Overall a very positive reaction!**

**Participants are really excited about the concept such as this that they've asked when it would be available. Participants are hoping that the process will happen for other countries as well.**

## Design

# A sneak peak of our design process.

Aim for a smooth hand-over to  
guarantee the best result.
